Which was read, received and filed.

The following members-elect: Messrs.
John F. Counahan, William H. Davis,

Charles F. Dinan and Emanuel F. Schifano took and subscribed to the oath of office administered by Hon. John T. Duff, Jr., Judge of the Court of Common Pleas of Allegheny County.

The Chair:

The Clerk will call the roll.

And the roll having been called, there were present: Messrs. Counahan, Davis, Dinan, Fagan, Gallagher, Schifano, Weir and Wolk.

The Chair:

The next order of business is the nomination and election of a President of Council. Nominations are in order.

Mr. Wolk:

Mr. Chairman and my Colleagues in Council: Eighteen years ago Thomas J. Gallagher took the oath of office as a member of City Council. Shortly thereafter his friends on the South Side gave a banquet in his honor. I was asked to speak on that occasion and to present flowers to his now deceased mother. Apparently I must have said something that impressed Tom Gallagher very much about his mother. After the speaking had finished he came to me, and with tears in his eyes, he thanked me for what I had said. From that day until this day Tom Gallagher and I have been warm, personal friends. I have watched him throughout his public career and know full well his accomplishments.

For many years, when we had a Department of Welfare in the City of Pittsburgh, he headed that committee. When the Department was eliminated he became Chairman of the very important Committee on Public Works. He has concerned himself not only with the work of his committee but with the many other problems of the City of Pittsburgh, particularly on matters concerning utility rates.

Tom Gallagher has given all of his time, and I mean all of his time, to the affairs of the City of Pittsburgh. He has given of his intelligence, his knowledge and his talent for the welfare of the City of Pittsburgh. At all times his heart beat in harmony with

the best interests of the citizens of the City of Pittsburgh, and particularly those who work with their hands.

Tom Gallagher has a most excellent reputation for honesty and integrity. He has conducted himself at all times as a fine public servant. As President of Council, if he is elected, he will be Chairman of the Committee on Hearings. To my mind, perhaps one of the most important provisions of the Constitution of the United States is that which is provided in the Bill of Rights, that the people have a right to petition their representatives in government for redress of their grievances. On every occasion, where it was necessary, Tom Gallagher has always espoused those principles to allow individuals or groups to be heard in this Chamber. I am certain if he is elected President of Council he will continue in that effort of his. There is not an ounce of intolerance in the heart or mind of Tom Gallagher, and when he presides over this body he will do so with fairness, with impartiality and with justice.

Tom Gallagher has seven children, and he was compelled, early in his married life, to rear those children alone. He did so under the greatest difficulties, and every one of those children have been reared to manhood and womanhood and now have families of their own. I say to you, my colleagues, any man who can have the family life that Tom Gallagher has had could not help but be a decent, upright citizen.

It is a great personal pleasure to me to nominate Thomas J. Gallagher to be President of this Council for the next two years.

Mr. Davis:

Mr. Chairman, and Members of Council: It is with pleasure that I have the honor of seconding the nomination of Thomas J. Gallagher to be President of Council.

Mr. Wolk moved

That the nominations close on the name of Thomas J. Gallagher.

Which motion prevailed.

The Chair:

The Clerk will call the roll on the nomination of Mr. Gallagher to be President of Council.

And the result of the voting was as follows:

For Mr. Gallagher: Messrs. Counahan, Davis, Dinan, Fagan, Schifano, Weir, Wolk.

(Mr. Gallagher not voting).

And Thomas J. Gallagher having received seven votes of Council was declared duly elected President for the ensuing term.

The Chair appointed Messrs. Wolk and Dinan to escort Thomas J. Gallagher, President-elect, to the Chair.

The Committee performed the duty assigned it and presented Mr. Gallagher to the Chair.

The Chair:

The Committee is discharged with the thanks of Council.

And the oath of office as President of Council was administered to Thomas J. Gallagher by the Honorable John T. Duff, Jr., Judge of the Court of Common Pleas of Allegheny County.

The Chair:

The Chair presents to Council and to the citizens of Pittsburgh the new President of Council, Thomas J. Gallagher.

Mr. Gallagher (Pres't):—

Gentlemen of Council, Mayor Lawrence, Judge Duff, Ladies and Gentlemen:

I think you know that I appreciate highly the honor conferred upon me this morning and the spirit in which it was done.

I realize with this honor goes many responsibilities. However, these responsibilities are also shared by all the other members of council. I want you to know that I hold your action a great honor, and I shall try to justify by my acts your confidence in me. I appreciate highly the kind words of Mr. Wolk placing my name in nomination and the equally kind utterances of my very good friend, Mr. Davis, in seconding it.

My election bespeaks a disposition on the part of the members to be united at this time on policies which we all believe to be good for Pittsburgh. At this point I am pleased to note that we have a Mayor and a Council which has in the past and in the future, I believe, will co-operate for the best interests of our City.

I do not need to say that we as Members of Council and the Mayor of this City appreciate and respect the fact that each and all of us have our particular duties and responsibilities. Each branch has its own prerogatives and powers as granted by the State Legislature. I know that all of us will show proper respect for the boundaries of our particular fields of activities, and that out of this will come an efficient administration of affairs.

Council has great responsibilities, one of which is that it is called upon to confirm the appointments of the Mayor for the heads of the various Governmental Departments. Council is almost totally responsible for the number of employees, the wages they are to receive, and the levying of the tax rate upon the property owners who must pay the bill.

We are importuned from every side to increase the number of Police and Fire Employees, to improve play facilities, to add swimming pools, and build streets. We cannot do these things without some increase in expenditures, so Council with the Mayor must share these responsibilities. However, the larger responsibility rests upon council, because, as I said, before it is within the province of council to fix the tax levy and make the annual appropriations for the administration of the City Government.

I am a firm believer in the complete co-operation between the Legislative and Executive Branches of the City Government for the betterment of conditions for the people of this great industrial community.

To the members of council I wish to state that during my term I shall at all times do my best to conduct the affairs of this body with close re-

gard to the rules of parliamentary procedure, with fairness and courtesy to all, and with the hope that every question presented to us will be discussed and fully considered before action is taken.

Council is composed of men, every one of whom has been in Public Service for many years. They are able and experienced men. In the past we have conducted the legislative affairs of this City honestly, firmly, discreetly and with an individual and collective disregard of anything except the welfare and advancement of Pittsburgh. The people of Pittsburgh have placed a trust in us, and I am sure, gentlemen, that this trust is going to be faithfully and honestly carried out.

We welcome the new members of council to this body, and welcome them with the confidence that they will serve the City well, relying upon their experience, training and integrity. I feel sure that this prophecy will be borne out.

Yesterday, in the confines of my home, looking at television, as did many other citizens of Pittsburgh, I want to say here and now that the program announced by Mayor Lawrence has my hearty accord. I want to say here publicly that I will do everything in my power to help achieve this great program for the City of Pittsburgh in the year 1952.

I now call upon the newly-elected members. I will do that in alphabetical order.

Mr. Counahan:

Mr. President, Mayor Lawrence, Judge Duff, Members of Council and Ladies and Gentlemen: I want to congratulate you first, as President of Council. Next, I would like to thank the people who elected me a member of Council. I hope my actions in the future will merit their support and confidence. Thank you.

Mr. Davis:

Mr. President, Mayor Lawrence, Judge Duff and Ladies and Gentlemen: I am not going to make a long speech. I too want to thank the citizens of Pittsburgh for electing me to Council

and hope I will have a long and successful term and serve the people well. Thank you.

Mr. Dinan:

Mr. President, Mayor Lawrence, Judge Duff and Ladies and Gentlemen: I am happy this morning to have, as my first official duty, served on the committee to assist you to become President of Council. I bring to the City of Pittsburgh sixteen years of experience with the County of Allegheny; sixteen years of association with the Chairman of the Board of County Commissioners, the Honorable John J. Kane. I hope I shall be of much help to you and the Mayor and the great City of Pittsburgh. I shall endeavor to serve all of the people of the City of Pittsburgh to the best of my ability.

Mr. Fagan:

Mr. President, Mayor Lawrence, Judge Duff, Members of City Council and Ladies and Gentlemen: I am happy to be here on this occasion and want to extend my congratulations to the newly-elected President. I assure you that I will be glad to cooperate in every manner possible for the best interests of the citizens of Pittsburgh.

I was elected by the citizens and my obligation is to the citizens, and I am going to do, with the help of God, if I am spared, in the next two years, the things I did in the past two years, everything in my power to serve the citizens and serve them well, and try to make the City of Pittsburgh one of the most outstanding cities in the United States. Congratulations to you, Mr. President.

Mr. Schifano:

Mr. President, Mayor Lawrence, Judge Duff and Distinguished Guests, Fellow-members of Council and Ladies and Gentlemen: I too, like my colleagues, wish to express the thought that I am grateful to each and every one of you and to the people of Pittsburgh who made it possible for me to be here on this occasion. I want to pledge myself to do the best kind of a job that I can do, according to the best of my ability. I too, like Mr. Gallagher, want to say that I am heartily in

accord with the program of Mayor Lawrence, and will attempt to carry it out to the best of my ability.

Mr. Weir:

Mr. President, Mayor Lawrence, Judge Duff and all of our Friends: I know this must be a great satisfaction to you, Tom, after your long years of service here to be occupying the rostrum as you are. I know it is a satisfaction to your family and to the very great host of friends you have in the City of Pittsburgh.

I want to say that you know and we all know that we have a great task before us to meet the expectations of the people of this great City. We will all cooperate with you in every way possible to make your tenure in office the most successful in the history of the City of Pittsburgh.

Mr. Wolk:

Mr. President, Mayor Lawrence, Judge Duff and Friends of the newly elected Members of Council: I want to take this opportunity to congratulate the newly elected members of Council, and I want to assure all my colleagues in Council as well as you, Councilman Gallagher and Mayor Lawrence, that I will do everything in my power to cooperate with each and every one of you to aid in making 1952 one of the best years in the administration of the City of Pittsburgh.

Mr. Weir moved

That Council, together with the Mayor, proceed to the election of a member to fill the vacancy in Council caused by the death of Walter R. Demmler.

Which motion prevailed.

The Chair:

The Mayor, under the Charter Act is entitled to a vote in an election to fill a vacancy in Council. The Clerk will call the roll.

Present: Messrs. Counahan, Davis, Dinan, Fagan, Schifano, Weir, Wolk, Gallagher, (Pres't), Hon. David L. Lawrence, Mayor.

The Chair:

The order of business is the election of a member of Council to fill the vacancy caused by the death of

Walter R. Demmler. Nominations are in order.

Mr. Weir:

Mr. President: This Council suffered a very great loss in the death last summer of Walter R. Demmler. I think the shock of his death was one which possibly caused us to hesitate in immediately filling the office that was vacated by his death. Not only because Mr. Demmler was a great student of municipal affairs, but I know we have a great personal loss because, ordinarily we do not have in a person outside of your own family because of the great character of the man.

At that time, when we thought of filling the vacancy, I believe it was deemed likely that we would select someone from the North Side of Pittsburgh, because Mr. Demmler and myself came from that section, and we were the only ones, of course, who did. However, Mr. Counahan had been nominated later on and was elected, which I am very happy to say. He is a Northsider, so there are two of us, and the thoughts of the Councilmen then went to a wider field. There were several persons, citizens of Pittsburgh, who were mentioned for the office of Council to fill the vacancy caused by the death of Mr. Demmler, and many of those persons were men that I would have been honored to vote for, for various reasons. Their candidacies did not prevail.

Last November, I believe it was, the name of Bennett Rodgers was suggested, and immediately, it just seemed by acclamation that everyone of this body and the Mayor felt—there is the man. And perhaps the reason he was not thought of earlier was because he was so close to us, which is often the case. Since that time, and since it has become public knowledge that the members of this body and the Mayor favored Mr. Rodgers, I have met many citizens of Pittsburgh, and particularly I have talked to a number of lawyers in the City of Pittsburgh, and I do not think I have ever known an occasion that I have found so many people spontaneously and seriously saying to me, "I think that is the right move

to elect Bennett Rodgers to Council; he is a swell fellow and a good lawyer." I know that because of my association with Ben in the Law Department of the City of Pittsburgh where I had the pleasure of serving with him for a number of years.

I would like to say a few things about him and his background.

Ben is very well educated for the profession of law. He graduated from the Shadyside Academy and Yale University, and subsequently studied at two of the great old schools of the Anglo-American world, Cambridge University of England and at the University of Pittsburgh, here in our great City, and in 1935 he became an Assistant City Solicitor of this City and for the last several years has been the First Assistant City Solicitor. At one time or another he was appointed First Assistant City Solicitor. He more or less just grew into that office. When I was in that office, we all used to gather in Ben's office to talk over the practice of law in that office. He has the highest possible qualifications to serve in the office of Council. I not only think he will be a great credit but of tremendous assistance in working out the problems, and it is a real pleasure to place in nomination the name of Bennett Rodgers.

Mr. Fagan:

Mr. President: I rise at this time to second the nomination of Bennett Rodgers for City Council. I do so with the understanding that Mr. Rodgers has the ability and the qualifications and the integrity to serve in this capacity. He has been a part of the Legal Department, as First Assistant City Solicitor, and is well grounded in the fundamentals of municipal law, and I think will be a great asset to City Council. For that reason, I am happy to second the nomination of Bennett Rodgers to be a member of City Council to fill the unexpired term of the late and lamented Walter R. Demmler of happy memory.

Mayor Lawrence:

Mr. Chairman and Members of Council: I rise also to second the nomination of Bennett Rodgers to be a mem-

ber of this body. In doing that, I have several things in mind. First, I am very happy the members of Council agree on him as the person to succeed the late Walter R. Demmler. It seems that Bennett Rodgers was born to the City Council. His father, William B. Rodgers, was Solicitor to George W. Guthrie who gave this City a great administration back in the early part of this century. With the long years he has had in the City Solicitor's office, I doubt if there is anybody better grounded in municipal law or better grounded in the affairs of this great municipal corporation than is Mr. Rodgers.

Also, I am happy because in the recent past we have lost three very able lawyers who likewise were well grounded in municipal law—Tom Killgallen, Judge Duff and Judge Stewart. We have lost three men of extraordinary ability, and I am sure that Mr. Rodgers, with his background, will help to fill that gap.

I know this has been a great proving ground when we think of Judge Duff and Judge Stewart, and some of the others who have graduated from here. Commissioner John Kane was a member of this Council and graduated over to the County government where he has so ably filled the position of Chairman of the Board of Commissioners for sixteen years. We are very proud of the fact that we are able to turn out graduates to move on in some other capacity.

I am very happy to welcome the new members of Council. John Counahan, who has, for many years, served in the ranks of labor, I am sure will bring to this Council a lot of good ideas through his efforts as an outstanding citizen of this great City. I can say the same for Charlie Dinan, who over the years has served the people of the County of Allegheny and is an integral power in the County. Likewise, I am happy to welcome Emanuel Schifano. He has been with us for a number of years in City government and for a number of years in Harrisburg on legislative matters.

As I stated yesterday and Saturday,

we have a great job before us. I feel we have done a great job in the past six years and in the administration of Mayor Scully who has never been given the credit to which he was entitled for the things he initiated and carried out for this great City.

I feel we have a strong City Council and a strong government here going forward to complete the great projects that are the talk of the country and a benefit to the taxpayers of this City. As stated by the President, we are doing a lot of things. In this last budget we were compelled to raise the taxes, but if anybody can advance to me any way we can carry on the government, raise salaries and wages, just the way the corporations raise them and pay the increased cost of materials, I wish they would come forward because they are entitled to some place in this City government.

I have talked a little longer than I intended, but I am happy to second the nomination of one of the great citizens of Pittsburgh to become a member of this Council, Bennett Rodgers.

Mr. Weir moved

That the nominations close on the name of Bennett Rodgers.

Which motion prevailed.

The Chair:

The question is on the election of Bennett Rodgers to be a member of Council to fill the vacancy for the unexpired term until the next Municipal election.

On the election of Mr. Rodgers, the Clerk will call the roll.

And the result of the voting was as follows:

For Mr. Rodgers: Messrs. Counahan, Davis, Dinan, Fagan, Schifano, Weir, Wolk, Gallagher (Pres't), Hon. David L. Lawrence, Mayor.

The Chair:

And Bennett Rodgers having received all of the votes of the members of Council, and the vote of the Mayor, is duly elected to fill the vacancy in Council caused by the death of Walter R. Demmler, in accordance with the provisions of the Act of Assembly approved May 31, 1911.

The Chair:

I appoint Messrs. Weir and Fagan a committee to escort the member-elect to the Chamber for the purpose of having the oath of office administered to him.

And the oath of office was administered to Bennett Rodgers by the Honorable John T. Duff, Jr., Judge of the Court of Common Pleas of Allegheny County.

The Chair:

The Chair recognizes Mr. Rodgers.

Mr. Rodgers:

Mr. President, Mr. Mayor, Members of Council, Distinguished Friends and Visitors: It gives me great pleasure to be here, as you can imagine. First, I wish to express my appreciation to the President, the Mayor and the Members of Council for the confidence they have placed in me by their vote which has just been taken. I might say that I was not far away when the nominating speech was made and when the remarks following that were put on the record. For a while, I was just a little bit afraid that Mr. Weir, the Mayor and Mr. Fagan were talking about some other person. For that reason it is really a great pleasure for me to be here.

I want to express and pledge myself to carry on the great things that are being done by this body and the Mayor of the City of Pittsburgh. I have had some experience in past years in the administration of the Law Department of this City. I have been able, in somewhat a small part, to contribute to the great things that have been done and are being done and will be done in the future.

I pledge myself to you, Mr. Mayor, to Mr. Gallagher and to the members of Council and to the people of the City of Pittsburgh, to carry forward to the best of my ability the projects and the forward-looking plans of this City.

I wish also to express my appreciation and thanks to Judge Duff, who administered the oath of office. I was glad he did not ask me to repeat after him. I have read it and recognize every word, and was glad to say, "I do," rather than repeating every word. Jack

Duff and I have been friends for many years. He taught me in Law School, and since then I have counted him a friend. It was a great pleasure to stand before him and say, "I do." I thank you very much.

The Chair:

What is the pleasure of Council with respect to the adoption of the rules of Council?

Mr. Wolk moved

That the Rules of the preceding Council be adopted as the Rules of this Council.

Which motion prevailed.

The Chair:

The Chair also announced the appointment of Messrs. Weir, Davis and Counahan as members of the Special Committee of the Carnegie Free Library of Allegheny.

The Chair:

If there is no further business to come before the meeting, a motion is in order to adjourn.

Mr. Weir moved

That Council adjourn.

Which motion prevailed.

And

Council adjourned.

Whereas, The Public Utility Commission after extensive hearings entered an Order on October 17, 1949 increasing the rates of the Bell Telephone Company by over \$17,500,000; and

Whereas, The City of Pittsburgh was

the only municipality in the State of Pennsylvania that appropriated funds and actively opposed the increased rates of the Bell Telephone Company before the Public Utility Commission, the Superior and Supreme Courts, and as a result of its efforts the state-wide increase was reduced from \$25,000,000 requested to \$17,500,000, and will be further reduced if the decision of the Superior Court with respect to certain charges made by the Bell Telephone Company are upheld by the Supreme Court of Pennsylvania; and

Whereas, The Bell Telephone Company of Pennsylvania on January 7, 1952 filed with the Pennsylvania Public Utility Commission new schedules of rates and tariffs to become effective March 7, 1952, which will increase the cost of telephone service throughout the State of Pennsylvania by an additional \$32,000,000 annually; and

Whereas, The combined 1948 and 1952 increases in tariffs of the Bell Telephone Company represent an annual state-wide increase of \$50,000,000; Now, Therefore, be it

Resolved, That the Council of the City of Pittsburgh does hereby direct Anne X. Alpern, City Solicitor, to immediately take the necessary legal steps to prevent these increases from going into effect and authorizes the Law Department to procure the testimony of expert witnesses and to oppose these unwarranted increases in rates before the Public Utility Commission and the Courts; And, Be it further

Resolved, That every municipality, township, borough and governmental agency in the State of Pennsylvania be asked to intervene in these proceedings so that the City of Pittsburgh will not again be the only municipality to actively oppose these tremendous annual increases in the cost of this basic and essential service. A combined effort by all levels of government is necessary in the public interest to protect the consumers.

Which was read.

Mr. Fagan moved

The adoption of the resolution.

Mr. Fagan:

Mr. President and Gentlemen of Council: I rise at this time to make a few remarks with reference to the proposed increase in rates by the Bell Telephone Company.

I want it understood that I believe the Bell Telephone Company, like any other corporation in America, is entitled to a fair return on its capital investment. The stockholders are entitled to a reasonable profit and fair dividends, but I think the amount that the Bell Telephone Company is asking at this time, in my opinion, is not fair and reasonable.

I read in the Pittsburgh Press yesterday a story by L. R. Lindgren, Pittsburgh Press Staff Writer. The caption is "Even Chance Seen for Raise in Phone Rates, Off-Record PUC View Is Boost's Justified."

Then I read in the Pittsburgh Catholic of January 10, and they are quoting from the Pittsburgh Sun-Telegraph, the profits of the Bell Telephone Company. The caption in the Pittsburgh Catholic is "Now the Telephone." It says:

"The latest public utility to serve notice on the people that they must pay it more money is the Bell Telephone Company of Pennsylvania, operating a complete monopoly of telephone service in this state. The new rates, which go into effect March 2, unless held up by the Public Utilities Commission (which ordinarily doesn't offer much resistance to what the utility corporations demand) will mean a 15 per cent increase, the company says.

"It will not be a 15 per cent raise on all types of service, however. On calls from a pay booth, for instance, a cool 100 per cent increase is demanded; a dime per call instead of a nickel. Varied increases are set for different types of residences and business connections. The company's argument is that its costs have risen and it must have greater income in order to keep up the dividend to its stockholders; this, it says, is necessary in order to encourage investors to supply the capital it needs for its expanding operations.

Such is the attitude of most privately-owned 'public' utilities; they say, in effect, that the public must give them enough income to cover their costs and profits. This means that the people provide the money and the corporations spend it as they see fit; in return the people accept whatever service the corporations provide.

"Theoretically the utility corporations are supervised by the PUC to see that they provide good service, to see that they don't put unjustified expenditures in their costs, and to see that they don't make exorbitant profits. But in practice the interests of the public seem to be disregarded.

"Does the PUC consider it a legitimate cost item for the telephone company to spend thousands of dollars, as it is now doing, to send each of its subscribers a booklet explaining (in pretty cagey terms) that the rates must be increased? And to spend additional thousands of dollars for advertising in daily and weekly papers throughout the state presenting the same specious arguments? The bills for all this printing and postage increase the company's operating costs; the increased costs are cited as a reason for higher rates; and thus the people are to be made to pay for being told that they must pay.

"Similarly, if court action is brought to halt the rate increases, the company's legal expenses in fighting the action—and utility lawyers get handsome fees—are charged to costs; these extra costs are cited as a reason for higher rates; and so the public is called upon to pay for legal action against itself. It's a game at which the publicity experts, the advertising agencies, the newspapers, the lawyers and the utility corporations can't lose; nobody loses except the public.

"But is the telephone monopoly really in need of a rate increase? The Pittsburgh 'Sun-Telegraph' gives some figures: The Bell Telephone Company of Pennsylvania reported net profits for the year ended June 30, 1950, of \$19,698,810, equal to

\$8.04 per share on its \$100 par value common stock; this profit was almost twice as much as it was for the preceeding year. And the American Telephone and Telegraph Company, the nationwide corporation which owns all the stock of Pennsylvania Bell, reported net income for the year ending June 30, 1951, of \$311,300,000, an increase of more than 50 millions over the preceeding year. It is known as one of the blue chip industries, and has been for a long time.

"According to those figures, there's no danger of 'Mother Bell' dying of starvation. And current stock quotations indicate that investors are eagerly anxious to buy telephone stock.

"True, labor rates are higher than they were 20 years ago. But other factors should be bringing about lower, instead of higher, charges for service. Improved equipment has been developed, meaning more 'production' per employee; the population of the area has become more compact, meaning that existing telephone equipment serves more and more people; the company has no competition, as it once had; it has no sales expense, as it once had, since it has a waiting list of customers."

Everybody knows that you cannot get a telephone installed today unless you have a letter from an important person. I feel that all cities of the first-class, second-class and third-class, and the boroughs and the townships of the State should join with us in trying to see that we get a fair deal before the Public Utility Commission of the State of Pennsylvania.

As I said at the outset, I feel they are entitled to a fair and reasonable profit. For the City of Pittsburgh alone to battle, is going to be some job. I feel that the City Solicitor, Anne X. Alpern, is well qualified to represent us in the courts on any matter that is going to come up with reference to the rate hearing and I feel she will make a very competent witness before the Public Utility Commission. It will be necessary to have engineers and statisticians to point out the physical value of this company and the profits they have made in the past.

I hope, Mr. President, that every citizen in the State of Pennsylvania will join, because, after all it affects the welfare of every citizen in the Commonwealth of Pennsylvania.

The Chair:

I just want to say that Mr. Fagan expresses my thoughts with reference to the proposed increase. We are not unreasonable. We want them to make a fair profit, but I think the burden of proof is on the company and they have to prove they need a second increase.

And the question recurring on the adoption of the resolution, the motion prevailed.

Mr. President: I have in my hand the Pennsylvania Economy League's report on the 1952 budget. I presume that all of the old members of Council have received a copy of the news letter for Western Pennsylvania.

In recognition for the advice and counsel and support given council, I replied to the letter, and I would like to insert in the record what I had to say to the Director, Leslie D. Reese, if there is no objection:

December 28, 1951.

Leslie D. Reese, Director,
Pennsylvania Economy League,
637 Union Trust Building,
Pittsburgh 19, Pa.

Dear Mr. Reese:—

Please convey to the officers of your organization my sincere thanks and appreciation for the League's review of

the Pittsburgh budget for 1952. I have read your report with great interest and intend to re-read and digest every item contained therein.

My first perusal leads me to believe that it is a factual, forthright evaluation of the 1952 budget. There is praise where the Council has done the right thing and constructive criticism of some of the shortcomings of City Council.

I assure you, speaking for myself, that I appreciate constructive criticism and try to benefit by the same.

Again permit me to thank you for the cooperation and advice that we received in person from David Kurtzman. He is an intelligent and outstanding economist and statistician, possesses wisdom and courage, and is a gentleman and a scholar.

As one member of Council I will be very happy to cooperate with the Pennsylvania Economy League in an effort to practice economy during the year 1952, and try in my humble way to render the best service possible to the citizens and taxpayers of the great City of Pittsburgh.

With best personal wishes and kindest regards, and with Season's Greetings, I am,

Sincerely yours,
Patrick T. Fagan.

MOTIONS AND RESOLUTIONS

Mr. Fagan:

Mr. President and members of Coun-

cil: Last week in speaking on Bill No. 72, I have in my hand a clipping from the Pittsburgh Press. A few days ago the financial report of the A. T. & T. or the Bell Telephone Company further sustained the action of Council in being opposed to any increase in rates by the Company at this time. It says:

"A. T. & T. Net Rises to \$10.54 a Share—New York, Jan. 15 (UP)—American Telephone & Telegraph Co. last year earned \$327,120,000, or \$10.54 a share, compared with \$286,802,293, or \$10.40 a year before, according to a preliminary report to stockholders.

"These earnings, realized on operating revenues of \$267,920,000, the company pointed out, included earnings of subsidiaries only to the extent that they have been received by A. T. & T. as dividends. In 1950 operating revenues totaled \$243,505,468.

"American Telephone and its principal subsidiaries which together comprise the Bell System earned net of \$376,784,730, in the 12 months ended Nov. 30, compared with \$351,161,644, in the preceding 12 months. Consolidated operating revenues totaled \$3,611,445,561, compared with \$3,227,295,169."

This is absolute proof that they are gilt-edge securities and fine stock, because, as I said a week ago, there is no doubt that the Bell Telephone Company is a "blue chip" industry and the earnings are very substantial, and there is no doubt that the administration and other public officials should be ready to go in there and pitch and fight against any increase in telephone rates, whether it is fifteen per cent or twenty per cent, or the pay stations which will be one hundred per cent.

Mr. Weir moved

That the Minutes of Council of Monday, January 14, 1952, be approved.

Which motion prevailed.

And upon motion of Mr. Weir

Council adjourned.

Gentlemen:

Bill No. 17, an ordinance authorizing the issuance of a warrant in favor of Allegheny Construction Equipment Co. was affirmatively recommended by City Council and a motion adopted instructing the Law Department and the Department of Lands and Buildings to renegotiate and rewrite the present contract between the County of Allegheny and the School District of the City of Pittsburgh for the handling of property taken over by the three taxing bodies.

For your information, this Department has attempted to procure an agreement from the School District and the County, whereby they would accept joint responsibility for any moneys expended for the protection of the properties jointly owned. It was the position of the School District that the responsibility for protection against fires was solely that of the City of Pittsburgh. We attempted to persuade the School District and the County that where property is owned jointly they should share proportionately in a large expenditure made not only for the protection of the people but for the protection of the property. They have refused to agree to such a division.

Under the circumstances, we suggest that Council take this matter up directly with the other taxing bodies.

Sincerely,

Anne X. Alpern,
City Solicitor.

Which was read, received and filed.

Mr. Davis:

Mr. President: Since the School Board and the County have taken that stand, I suggest that the bill be laid over, and so move.

Mr. Fagan:

Mr. President: I am opposed to the motion, because the matter has been taken up with the other two taxing bodies, the School Board and the County Commissioners. On the 28th day of December, 1951, this matter was before them, and Councilman Rodgers, who was then First Assistant City Solicitor, was there when we discussed the matter, and we agreed that the City would go ahead and pay the bill, because the Contractor left other work when this emergency arose, and he has not received payment to which he is entitled. That is the reason the ordinance should be passed so that the parties who were willing to leave their work in order to take care of an emergency to protect life and property. Because the School Board and the County Commissioners are listening to the advice of their counsel is no reason this should not be paid. This is a friendly suit or whatever kind of a suit you want to call it, but some one is going to have to pay the bill.

The Chair:

With this explanation, Mr. Davis, are you willing to rescind your motion?

Mr. Wolk:

Mr. President: Will the Clerk read the letter submitting the bill?

The Clerk read the letter as follows:

"We transmit herewith an ordinance authorizing the payment of \$7,953.89 to the Allegheny Construction Equipment Company covering work performed at Swinburne and Childs street, 4th Ward, City of Pittsburgh.

"This work was done in conjunction with the Bureau of Fire in extinguishing an underground fire. This was not a mine fire but was caused by rubbish, coal, coke, and other debris deposited at this site that was once a brickyard, but now covered with fill. This constituted a very dan-

gerous condition. It caused three people in the neighborhood to be overcome by fumes and the residents of houses numbered 39 to 47 Childs street to be ordered from their homes. Fire Chief Coslett reported an emergency existed and should be eliminated without delay.

"The fire was beneath property held in the name of the City of Pittsburgh and Trustee for the Taxing Bodies and was included in a Treasurer's sale in 1949. The other Bodies were notified of this condition and the County Commissioners have gone on record as willing to pay pro rata share providing such action is legal. An amicable suit will be entered to have the courts determine such legality.

"It has been suggested by our Law Department that the bill be paid prior to entering such suit. Payment of this bill has been delayed since last September and we are anxious to have this company reimbursed inasmuch as they were very prompt in eliminating the condition outlined above.

"Early and favorable consideration of this legislation is requested."

Mr. Davis:

Read the letter from the Law Department.

The Clerk:

"This Department has attempted to procure an agreement from the School District and the County whereby they would accept joint responsibility for any moneys expended for the protection of the properties jointly owned. It was the position of the School District that the responsibility for protection against fires was solely that of the City of Pittsburgh. We attempted to persuade the School District and the County that where property is owned jointly they should share proportionately in a large expenditure made not only for the protection of the people but for the protection of the property. They have refused to agree to such a division.

"Under the circumstances, we suggest that Council take this matter up directly with the other taxing bodies."

Mr. Wolk:

Who signed that letter?

The Clerk:

Anne X. Alpern.

The Chair:

She says they refuse.

Mr. Schifano:

Mr. President: She said that Council is to take it up with the other two taxing bodies.

Mr. Davis:

Mr. President: That is the reason I am objecting. I think this man should be paid promptly for the work he has done, but those two letters do not jibe.

Mr. Fagan:

Mr. President: Council has had the matter up with the two Taxing bodies. Councilman Rodgers was then a part of the Law Department and knows all the facts and knows all the arguments. The thing I am interested in, suppose you have an emergency tomorrow and the contractor says, go ahead and get the County Commissioners and the School Board, what are you going to do then? And the man would be justified in doing so.

Mr. Rodgers:

Mr. President: I agree with Mr. Fagan in this matter. The bill has been presented to the County and the School Board, and they have given a definite and final answer, a refusal to pay unless they are forced to pay by Court action. I suggest it is unfair to keep this contractor waiting. He was engaged by the City to do the work. I think he should be paid regardless whether we get compensation from the School or County.

Mr. Weir:

Mr. President: I think we might as well go ahead and pay this bill. In addition to what Mr. Rodgers has said, as I see it, if this contractor were to bring suit against the City for the collection of this bill, clearly he would win. We would have no defense. So why hold

him up? I will also say this, that unless the County and the School Board have a change of mind or heart, and decide voluntarily to contribute to the payment of this bill, we are not going to get anywhere in this amicable suit or any other. It is amicable in a sense they want us to get our share, but if this action is going to be opposed by them or either of them, then under this tri-party agreement we have with those two bodies, we are out of luck, and it just points up the question in my mind of having that agreement changed. I understand from Director Green that the sum of 8% which his department gets for the management of these properties just about brings them out even or as nearly as a thing like that can be determined. Consequently, when a thing like this occurs the amount of 8% that is received from rentals, there is no profit, and if the City is obliged to pay the whole bill I can think of nothing so unfair as to have a piece of property owned by the three Taxing Bodies and have one of these three stuck for damages that occur to a piece of property just because it is the one that is managing it. There is no using opposing this bill. The contractor could make us pay it, and when we have a clear, legal obligation, there is no reason to go to Court about it. It is merely too bad. We are going to have to pay this whole bill.

Mr. Dinan:

Mr. President: I think the original intention of sending it to the Law Department, it was not who was to pay the bill, it was for the legal right to pay the bill. We are getting off on the wrong track. We asked for the legal authority to pay the bill.

Mr. Fagan:

Mr. President: The letter comes back, and as far as I am concerned it is a lot of mumbo jumbo. It is like a Mother Hubbard dress.

Mr. Wolk:

Mr. President: Mr. Dinan is correct. The only purpose for sending it to the Law Department was to get their opinion whether we should pay the bill and then would we deprive ourselves of any legal right to proceed

against the County and the School Board. In other words, we wanted an affirmation of what Homer Green said in his letter.

Mr. Davis:

Mr. President: I will withdraw the motion. But I still do not understand the letter and I still do not think we should pay the full amount when they get the same benefits. I agree with Mr. Weir, they get all the benefits and we get nothing but pay the bills.

Mr. Wolk:

Mr. President: May I ask that Miss Alpern appear, to see whether we should pay this bill? Mr. Dinan is correct in his statement.

The Chair:

Miss Alpern, Council has requested that you appear here on Bill No. 17, which we are discussing under unfinished business.

Miss Alpern:

What happened there was—the property owned by the three taxing bodies became a very serious and dangerous condition to the occupants because of a fire underneath, and Director Green authorized this company to do the work as an emergency measure. He received no authorization from the other taxing bodies, and because the emergency occurred the work was ordered. In any case we would be liable for any fire underneath as well as above. We thought the County and the School Board should pay their proportionate share of the cost. The Solicitor for the School District disagreed with our position. We thought we would have a friendly suit and Mr. Langfitt is filing such a suit. I do not see anything we can do. The work was ordered by an official of the City. If we ever recover on this law suit certainly the School Board and the County are certainly solvent. They will not agree to such responsibility in the future or in the past.

Mr. Wolk:

I think it is clear, Mr. President.

The Chair:

Mr. Wolk presented

No. 340. Communication from the City Controller, submitting statement of Indebtedness of the Municipality as of December 31, 1951.

Which was read, received and filed.

Mr. Wolk:

Mr. President. Annually the City Controller sends up to be advertised a statement of the indebtedness and assets of the City of Pittsburgh, in compliance with the provisions of the Municipal Borrowing Law of 1941, P. L. 159. I move that this statement be advertised in the newspapers as provided by law.

Which motion prevailed.

Mr. Fagan:

Mr. President and Members of Council: There is a matter I would like to bring to your attention with reference to an article in the Post-Gazette captioned, "AFL Stops Work on Three City Jobs." It says: "Boycott may spread to Parking Garage Project next week."

I would like to make my position very clear in this matter with reference to the situation existing between the City of Pittsburgh and the private contractors, and the officers and representatives of the International Brotherhood of Electrical Workers of Local Union No. 5. I have in my hand a clipping from the Pittsburgh Post-Gazette of February 23, 1952. It says:

"An unannounced boycott against any city work by AFL electricians has stopped three projects and may affect several more.

"Electrical work on the Parking Authority garage at Sixth and Wylie avenues is scheduled to start Wednesday. It's possible no electricians will show up.

"The trouble goes back to a battle between William G. Shord, business representative of Local 5, International Brotherhood of Electrical Workers,

and members of the city administration, and City Council, P. T. Fagan in particular. * * *

I wonder why I was pointed out in particular, because, Mr. President I did not happen to be here the day you had a public hearing in Council when the representatives of the Electrical Workers appeared. I was attending the funeral of the late Nora Cuddyre, of happy memory. I was not here and knew nothing about it.

I understand a man by the name of Patrick Hackett represented the Electrical Workers and, of course, it says that this dispute is between William G. Shord, the business representative of Local No. 5, the Council and City Administration and P. T. Fagan. I have had no dealings and no meetings and no understandings and no conferences with Mr. Shord. Despite the fact that I understand Mr. Shord is saying a lot of nasty things about one P. T. Fagan, I would be happy if he would say those things to my face, because I would be glad to meet him either publicly or privately, if he cares to meet with me.

Later on we received a telegram from the Electrical Workers Union dated December 20, 1951, and, of course, Councilman Leonard had this telegram read into the record. You all know the contents of the telegram. It is not necessary for me to read it. A few days later we met with one Patrick Hackett over in the conference room of the Mayor and went over all of the things he cared to discuss with City Council in connection with the budget for the year 1952. Mr. Hackett had made his position clear to Council in that meeting and, of course, Mr. Shord was absent from that meeting. I do not know whether he was in Florida or where he was, but I understand he is in Florida now. That is a long distance battle and it takes a powerful gun to carry a shot from Miami Beach or from Hialeah race track to the Council Chamber or City Hall.

After the meeting with Mr. Hackett, when he talked to us about the men in the Traffic Planning Bureau and about the telephone operators at the

Communications Center at No. 1 Police Station, I remember, we called for Don McNeil, who was Traffic Engineer in the Department of Public Safety, Bureau of Traffic Planning. We called him down and asked him to give us all the circumstances in connection with the men who are employed in that department, what were their duties and whether they were on salary or per diem wage, and what were their hours and conditions of employment; and he told us very plainly what they were. Then Council, not P. T. Fagan, but the members of Council, acted with reference to wages and working conditions of the department.

In the department of which I am Chairman of the Committee, the Department of Lands and Buildings, there are ten electricians employed. I have never had any disagreement or misunderstanding with any of these men. If there is something wrong in the Department, I go to the Director, because he is the man responsible. He is appointed by the Mayor and confirmed by City Council to see that it is run both efficiently and capably, and in the best interests of the citizens of Pittsburgh. There are ten electricians in that department. There is one electrician foreman and his wages are \$27.60 a day, and there are seven other electricians who get \$25.60 each per day. There is one electrician that looks after the Department of Parks and Recreation, and his wages are \$25.60 a day; one in the Department of Public Health at \$25.60 per day to take care of the electrical work; making a total of ten electricians, and one apprentice, who gets \$10.24 a day. In the department over which I am Chairman of the Committee, I think we have a very fine mutual understanding and arrangement with the electricians. Apparently they all report for work every day and we have no complaint about it. But the complaint seems to be in the Bureau of Traffic Planning and, of course, these telephone operators in No. 1 Police Station.

I have been a union man the best part of my life, notwithstanding the fact that Mr. Shord said to some people over in his office and elsewhere that

I was, in my early life, an agent for a sewing machine company. I have never sold a needle in my life. Even if I had, there would not be anything wrong with that, or even if I had been an Armenian rug peddler. Then he said he had a fight with me when I was with the War Manpower Commission, that I wanted to put colored people in the ship yards down at Dravo. I was in the Manpower Commission and no doubt did place a lot of colored people in the mines and mills and ships, because it was my duty. I was in the Manpower Commission and trying to win the war, and we were scraping the bottom of the barrel, and if a body was warm, we sent him out to the factory in order to make shells to win the war. If Mr. Shord is singling me out as the individual that is responsible, that is okay. I am not looking for a fight or anything of the kind, but I have never run away from a fight and do not intend to, with Bill Shord or anyone else.

It seems kind of hypocritical on the part of Mr. Shord, because on the same day of the telegram, December 20, 1951, I received a beautiful Christmas greeting. It says: "Greetings and best wishes for Christmas and the New Year from International Brotherhood of Electrical Workers, Local Union No. 5, A. F. of L., William G. Shord, Business Manager."

Of course, you remember when we were discussing these matters there was a leak and I demanded to know who was responsible for the leak; that the things that had been discussed apparently leaked to the electricians, and then we got this telegram. So, it would seem to me, of course, with Mr. Shord enjoying himself down in Florida, the only ones who are suffering are the members of his union and the contractors who have done business with his union for almost fifty years, while William is enjoying himself basking in the sunshine of Florida. I read in the newspaper this morning the temperature was 84° there yesterday. If the temperature keeps on climbing, Bill will get hotter and hotter. If he has anything against me, I wish he would come to me. I am ready to talk with

him at any time. I have given the best years of my life to organized labor and I have been threatened and intimidated by the coal and iron policemen and State policemen and Deputy Sheriffs, and have had men say nasty things to me when I was out on the picket line. I have had them threaten me and my colleagues on the picket line and they warned us that they were going to make it tough for us. And my reply was that "it was all right to make it tough for the other fellow, providing he wasn't a little tougher than you."

If Mr. Shord has anything against me, I think he should be man enough to come here and not hide behind the issue, because I understand that the Directors who are involved in these contracts have written him letters and there has not been any reply. So, he does not have much of an argument and must not be much of a case, or he would be trying to have it settled with the union and the men he has the honor to represent.

I want it understood I have stood in this Council Chamber many times prior to becoming a member of this Council, arguing for the prevailing wage for carpenters, plumbers, electricians and what have you. He has gone so far as to say that I have not gotten along with Nick Grady, who has gone now to his everlasting reward and I hope he is happy in Heaven.

I do not understand why he does not come and tell these things to me, instead of going around and saying them to his executives and at meetings. I just want to make myself clear that organized labor has a friend in me, and when organized labor is right I will go to the bitter end, but when they are wrong I will tell them in just the same terms as I tell anyone else, because there is not any individual or any organization that is perfect. When they are right I will be for them and if they are wrong I will be against them, without any apologies. If William G. Shord has anything to say about me or wants to talk about this situation, and he is blaming it on me, I hope

he returns from Florida and takes it up with me, because I am willing to meet him either publicly or privately at any time.

Mr. Davis moved

CERTIFICATE OF EMERGENCY

Whereas, Article XIV, Section 13 of the Act of March 7, 1901, P. L. 20, as amended by the Act of May 31, 1911, P. L. 461, provides that all appropriations shall be made annually by general ordinance except in cases of emergency when special appropriations may be made to meet the same; and

Whereas, The Director of the Department of Public Works in letters addressed to the Mayor and the City Controller, under date of February 18, 1952, has stated another City Clean-Up Campaign is scheduled for this year and, as in the past years, block-by-block refuse pick-ups will be made; and

Whereas, private funds are being contributed to the Allegheny Conference on Community Development, to provide publicity and promotional activity. However, it will be necessary to have the City employ labor as well as some of the equipment and personnel of the Department of Public Works, and while funds have been appropriated in the sum of \$30,000.00 no provisions have been made for such employment; and

Whereas, Such appears to be a good and sufficient reason to impel the certification of an emergency under the circumstances;

Now, Therefore, We, Howard B. Stewart, Deputy Mayor of the City of Pittsburgh, and Edward R. Frey, City Controller of the City of Pittsburgh, do hereby certify to Council of the City of Pittsburgh the existence of an emergency requiring the Director of the Department of Public Works to employ twenty (20) temporary labor-

ers and one (1) temporary street foreman in the Bureau of Highways and Sewers, Department of Public Works, during the period covered by the 1952 City Clean-Up Campaign, at the prevailing wage rate established by Ordinance for such classification of employment.

City of Pittsburgh

CERTIFICATE OF EMERGENCY

Whereas, Article XIV, Section 13 of the Act of March 7, 1901, P. L. 20, as amended by the Act of May 31, 1911, P. L. 461, provides that all appropriations shall be made annually by general ordinance except in cases of emergency when special appropriations may be made to meet the same; and

Whereas, The Director of the Department of Public Works, in letters addressed to the Mayor and the City Controller under the date of February 19, 1952, has stated that the 1952 Appropriation Ordinance No. 670, approved December 22, 1951, provided the sum of \$100,000.00 in the Bureau of Highways and Sewers, Code Account No. 1655-8, for Asphalt repairs by Contract; and

Whereas, It was the original intention, at the time of the preparation of the budget, to use Code Account No. 1655-8 for the restoration of utility cuts, and it was proposed to let a contract for this purpose; and

Whereas, It is now found that there are a great many asphalt streets requiring patching, including many utility cuts requiring restoration, and it is felt that the appropriation of the said \$100,000.00 will cover the repair of most streets through the employment of personnel and the purchase and rental of equipment than if the work was done by contract; and

Whereas, Such appears to be a good and sufficient reason to impel the certification of an emergency under the circumstances;

Now, Therefore, We, Howard B. Stewart, Deputy Mayor of the City of Pittsburgh, and Edward R. Frey, City Controller of the City of Pittsburgh, do hereby certify to Council of the City of Pittsburgh the existence of an emergency requiring the making of asphalt repairs of streets and utility cuts, including the purchase of materials, the purchase and rental of materials and equipment, and the employ-

MOTIONS AND RESOLUTIONS

Mr. Rodgers:

Mr. President: In recognition of the interest of this City in the situation in the steel industry, I wish to present for the consideration of this body a resolution.

Mr. Rodgers presented

No. 632.

Whereas, The continued and uninterrupted production of steel is a matter of survival of the nation during this period of rearmament of the forces of freedom in the world, and

Whereas, The stoppage of steel production would have been a notice to the world, both to our friends and allies and to our enemies, that America was unable to meet its responsibilities because of domestic weakness and selfishness, and

Whereas, We in the Pittsburgh district have a special interest and a special duty in the maintenance of steel production, with its enormous impact upon the economic life of this district, affecting both business and labor, and

Whereas, Under such circumstances of public emergency, the City Council of Pittsburgh has the right and the obligation to express itself upon the question; Now, therefore, be it

Resolved, That the City Council of Pittsburgh does hereby express its thankfulness that a shutdown of the steel industry has been to this date averted, because of the brave and determined action of the President of the United States, Harry S. Truman, who used the inherent powers of his office to protect the national safety and the general welfare; and that this Council does further urge that a prompt settlement of the dispute be made upon the basis of the report of the Wage Stabilization Board. It is essential that in time of crisis both manage-

ment and labor agree to put the public interest first. The Wage Stabilization Board finding was an expression of public interest, through the duly constituted public representation. If its findings had been accepted by management and rejected by labor, there would have been tremendous pressure upon labor to recede from its position and continue work. We have a right to expect the same degree of regard for public interest from management as we would require from a labor organization.

The City Clerk is hereby instructed to send duly certified copies of this resolution to the President of the United States; to the presidents of the United States Steel Corporation, Jones and Laughlin Steel Corporation, Bethlehem Steel Company, Republic Steel Corporation, Youngstown Sheet and Tube Company, and Inland Steel Company, and to the president of the United Steel Workers of America.

Which was read.

Mr. Rodgers moved

The adoption of the resolution.

Mr. Fagan:

Mr. President: I rise at this time for the purpose of supporting the resolution as presented by Mr. Rodgers and seconded by Mr. Schifano. I want to go on record as supporting this fine action on the part of Pittsburgh City Council. I feel that the President of the United States, Harry S. Truman, is entitled to the commendation and everlasting gratitude of the citizens of this great Nation of ours in having the courage and intestinal fortitude in telling the steel industry that a settlement should be made on the basis of the recommendations of the Wage Stabilization Board.

The President of the United States received many commendations when he took over the railroads a few years ago and when he took over the coal mines, and when the coal miners were fined a million and a half dollars; and now big steel and little steel and fabricating plants should put into operation the award of the Wage Stabilization Board. Of course, there is a lot of moaning and groaning and complain-

ing on the part of certain interests in this Nation.

The president of the United Steel Workers of America, Philip Murray, is one of America's greatest labor statesmen. I say that with all due respect and admiration for all the other labor leaders in North America, in the CIO, in the American Federation of Labor and the Brotherhood of Railroad Trainmen and affiliated organizations. Mr. Murray and the policy committee for almost one hundred days, or ninety-nine days have done everything humanly possible to try to bring about a settlement of this great dispute that now exists between management and labor. The wage contract expired on December 31, in the year 1951, and, at the request of the President of the United States, President Murray, together with the policy committee, called the National Convention of the United Steel Workers in Atlantic City on the 3rd day of January, 1952, and in a very democratic manner, President Murray, along with the resident officers of that Union, and the directors, placed before the delegates of that convention, who represent the steel workers of the United States and Canada, all the facts of their negotiations and the companies' refusal to make an agreement in line with the demands that were presented by the Steel Workers' Union. And, after submitting the matter to the delegates, they advised Mr. Murray to submit their dispute to the Wage Stabilization Board. This they did. They appeared before the Wage Stabilization Board and presented their case. They presented it in a very able and capable manner, as did the representatives of the steel industry.

I hold in my hand a copy of the "Steel Labor," the voice of the United Steel workers of America, CIO. It is the April issue, and on the front page is the picture of Benjamin Fairless, President of the U. S. Steel Corporation. I want to put into the record his statement:

"Whether our workers are to get a raise, and how much it will be if they do, is a matter which probably cannot be determined by col-

lective bargaining, and will apparently have to be decided finally in Washington."

The above statement was made by Benjamin Fairless, President of the U. S. Steel Corporation, in a speech at Cincinnati, on November 15, 1951. This statement of Mr. Fairless' was made prior to the opening of wage negotiations between the steel companies and the United Steel Workers of America. The steel workers tried in every manner possible to negotiate a contract through conferences and collective bargaining, but apparently they were not able to do so, and as a result the negotiations broke off and the matter was submitted to the Wage Stabilization Board. The steel workers do not get all they ask for in their demands or recommendations that were submitted to the Wage Stabilization Board. But after the Wage Stabilization Board made its decision the steel workers acquiesced in the recommendations of that Board.

Of course, after President Murray and the policy committee agreed to go before the Wage Stabilization Board, I read editorials in a lot of newspapers saying Mr. Murray was a great labor statesman and that Philip Murray was a great American. There is no question about that. I have known him for more than fifty years, and have seen him in action in the coal industry and steel and aluminum and other industries, doing an outstanding job. During World War I he received many citations from the Government and the Red Cross and other civic and service organizations for the outstanding services he performed. And in World War II nobody else did more than he did to win the war. He traveled from one end of the Country to the other, settling disputes and strikes and putting men back to work; determined to do everything he could to save our way of life. And, of course, there isn't any doubt about the situation in which we find ourselves today. For your information, gentlemen, in the brief that was filed in the summarizing of the steel industry's case before the Wage Stabilization Board, they wanted a provision written

in by the Wage Stabilization Board of master and servant. That was one of the things that big steel and little steel and the fabricators and all the others wanted written into the findings of the Wage Stabilization Board. I am not going into a lot of history. We know all about big steel and little steel and the coal industry, and we know that until a few years ago they had closed towns and if you went into them you were arrested. The Constitution was on their side. They could violate the Constitution and do anything they desired. The President of Council knows all about it. When he was in the Legislature he was head of the committee to investigate sweat shops. Even an undertaker had to have a permit to go into these towns to take over the body of John Jones or Bill Smith. Now, of course, the Constitution of the United States is functioning in the interest of all the people. Thank God, we have a President who has courage to stand up and not only tell management but to tell Labor just what the rights of each are. I think he is entitled to the commendation of every citizen of this Nation for the outstanding job he did. First, in the interest of our sons and daughters who are in the service, who are in Korea fighting for you and for me, and in the interest of the men and women in the service in Europe trying to preserve our way of life and trying to preserve democracy so that we may continue free enterprise in America.

I want to say in closing, I am one

hundred per cent for the resolution now before Council and want to congratulate Mr. Rodgers for introducing it, and Mr. Schifano for seconding the motion for its adoption.

The Chair: I agree with the remarks made by Mr. Fagan. He knows whereof he speaks. I know the things he brought out about Mr. Murray are true.

And the question recurring on the adoption of the resolution, the motion prevailed.

Mr. Rodgers also presented

No. 633. An Ordinance authorizing an appropriation of One Thousand (\$1,000.00) Dollars by the City of Pittsburgh, on condition that the United States Government, through the Department of Interior, Bureau of Mines, appropriate the sum of Two Thousand (\$2,000.00) Dollars for the exploratory work necessary to determine the extent of a fire burning in an exposed coal bed south of Bigelow boulevard and north of Bedford Dwellings, the estimated cost of the work being Three Thousand (\$3,000.00) Dollars.

Which was read and referred to the Committee on Finance.

Mr. Davis moved

DEPARTMENT OF LAW

May 8, 1952.

Committee on Finance,
City Council.

Gentlemen:

Bill No. 720, a resolution authorizing the Better Traffic Committee to engage the services of the Mason Marionettes to produce safety shows at the public playgrounds, has been affirmatively recommended subject to an approval by the Law Department as to legality.

This Department has previously ruled that the City may allocate funds for the purpose of defraying the cost of educational shows designed to instruct children concerning traffic dangers. The problem of traffic congestion and of educating the children of the community toward proceeding with caution in this highly industrial area is a very serious one which the City is attempting to solve in many fashions.

Money for dramatizing the problem is a proper legal expenditure which will doubtless save the lives of many children. Such an expenditure is within the purview of the City's powers and is, therefore, approved as a part

of an over-all traffic planning program.

Respectfully submitted,

ANNE K. ALPERN,
City Solicitor.

In accord with the apparent wish of City Council expressed during the public hearing on Council Bill No. 572 (52), on May 5, 1952, the owners of residential properties in the 600 block of Allegheny avenue have been sent forms giving them the opportunity to state their sentiments for or against this Bill.

President and Members,
C. Ronal Woods, Director.

RE: Council Bill No. 610(52)—Proposed Zone Change Bedford avenue and Duff street, 5th Ward.

At it's regular meeting held today, the Planning Commission considered Council Bill No. 610 (52)—an Ordinance amending Zoning Ordinance No. 372, approved August 9, 1923, Zone Map Sheet Z-N10-E15, by changing from an "A" Residence (U-4) District, to a Commercial (U-3A) District, Class "A", all that certain property bounded by

Bedford avenue; Duff street; Bloomer way; and the northeasterly line of the present Commercial District northeast of Chauncey street.

The Commission took the following action:

"MOTION—That the Staff Report dated May 1, 1952 be received, and that Council Bill No. 610(52) be DIS-APPROVED for the following reasons:

1. The proposed change if effected would constitute enlargement of an unwarranted and undesirable "spot" zone, for which when created less than a year ago, there was, and for the enlargement of which, there is now, no known community need as indicated by the following:

(1) There appears to be ample area in the nearby Commercial Districts for the location of any stores to serve the needs of this community as (a) the concerned area is located only 1 block (less than 500 feet by traveled streets) from the extensive Commercial District along the Webster avenue frontages, west from Somers street. In that Commercial area, less than 750 feet from the area proposed to be changed, is a vacant frontage of 249.26 feet with a depth of 119 feet under three ownerships, zoned Commercial and topographically suited to development. A portion of this Commercial District extends to Bedford avenue, at a point only about 1000 ft. from the concerned frontage. In the one block of this Commercial District nearest the concerned area (Webster avenue, Somers to Kirkpatrick), only 13% of the frontage is now commercially used; 18% is vacant land and 69% is residentially used, a total of 87% of frontage legally available for additional commercial enterprise. Other portions of this Commercial District are similarly lightly developed for commercial use.

(b) Other Commercial Districts occur within easy reach of the concerned area, so that within ¼ mile of the concerned location, there is over 7000 feet of commercially-zoned frontage within

which there are many stores, offering a variety of merchandise and services, and at the same time, within which there is vacant land and much residentially-used property, all legally available for new commercial uses.

(2) in addition to stores located in the nearby Commercial Districts, this neighborhood is now being served by non-conforming commercial uses. Within 500 feet of the concerned area there are 17 such uses including 6 grocery stores, 2 confectionery stores, 2 beauty shops, 1 cleaning shop, and 2 drug stores.

2. The present zoning classification is suitable for the concerned property;

3. The proposed change, like the preceding "spot" change would be prejudicial to residential uses along adjacent frontages;

4. It is indicated by the requested reclassification, that the proposed development would be of a type providing more than immediate neighborhood service, and one likely to be in competition with and to make more difficult the development of Commercial facilities proposed to be provided under the "lower hill district" redevelopment program, which program has, in the last year made significant advances toward reality; and

5. The proposed change is not in accord with the Commission's Tentative Draft of the Proposed New Zoning Ordinance, and the Department of City Planning's recent studies for revision of that draft.

CARRIED"

Yours very truly,

C. Ronal Woods,
Planning Director.

Which was read, received and filed.

Mr. Rodgers moved

A suspension of the rule to allow the second and third readings and final passage of the bill.

Which motion prevailed.

And the bill was read a second time and agreed to.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question "Shall the bill pass finally?"

The ayes and noes were taken, agreeably to law, and were:

Ayes:—Messrs.

Counahan	Dinan
Davis	Fagan
Rodgers	Wolk
Schifano	Gallagher, (Pres't)
Weir	

Ayes 9. Noes none.

And there being three-fourths of the votes of Council in the affirmative, the bill passed finally, in accordance with the provisions of the Act of Assembly of May 11, 1921, which provides that, where a protest is filed against a proposed zoning amendment, a three-fourths vote of all the members of Council in the affirmative shall be required for final passage.

CITY OF PITTSBURGH

CERTIFICATE OF EMERGENCY

Whereas, Article XIV, Section 13 of the Act of March 7, 1901, P. L. 20, as amended by the Act of May 31, 1911, P. L. 461, provides that all appropriations shall be made annually by general ordinance except in cases of emergency when special appropriations may be made to meet the same; and

Whereas, The Director of the Department of Public Safety in letters addressed to the Deputy Mayor and the City Controller under date of June 18, 1952, has stated that in order to combat the rising traffic accident toll, it is necessary to employ two temporary typists in the Bureau of Traffic Planning at a cost not to exceed \$200.00 for two hundred and ten (210) working hours at 95c per hour, to gather material, prepare letters and invitations and register delegates to the Mayor's Highway Safety Conference on October 1, 1952; and

Whereas, The foregoing appears to be a good and sufficient reason to impel the certification of an emergency under the circumstances;

Now, Therefore, We, Howard B. Stewart, Deputy Mayor of the City of Pittsburgh, and Edward R. Frey, Controller of the City of Pittsburgh, do hereby certify to Council of the City of Pittsburgh, the existence of an emergency requiring the employment of two (2) temporary typists in the Bureau of Traffic Planning at a cost not to exceed \$200.00 for two hundred and ten (210) working hours at 95c per hour for the purpose above set forth.

UNFINISHED BUSINESS

The Chair took up

Bill No. 1094. An Ordinance entitled, "An Ordinance to continue Federal Rent Control in the City of Pittsburgh to April 30, 1953."

In Council, July 23, 1952, bill read and amended, and laid over for re-printing.

Which was read a second time.

The Chair (Mr. Fagan) said:

Gentlemen of Council, I would like to say, with reference to File No. 749, Bill No. 1094, presented by President Thomas J. Gallagher on July 7th, and a public hearing held on July 11th at the request of the Pittsburgh Real Estate Board, the letter being signed by Donnell D. Reed, President.

If you will recall, Council held this public hearing on July 11th with reference to rent control.

The Act that was before the Congress of the United States Public Law 429—and there is no doubt that Congress passed the buck back to the cities and towns of the 48 States; and as a result of the discontinuance of rent control by the Federal Government, the Council has before it this morning this important piece of legislation, which we are requested by a large number of people, to continue rent control until April 30, 1953. Now, if you will recall, the Real Estate Board of Pittsburgh was represented by their counsel. They made it very plain that they were not in favor of the continuance of rent control. The hearing was granted by the President of Council, at their request, and when their counsel was given an opportunity to present their case, he made it very plain that he was more interested in listening to what the proponents of the bill and the other people interested in rental control had to say; and as a result,

Robert Lieberman, representing the Pittsburgh Central Labor Union, among others, spoke in favor of continuing rent control until April 30, 1953. He pointed out in a very fair, honorable and reasonable manner that there was a shortage of houses in what some people call the "low rent" bracket and moderate rents below \$85.00 a month. In my opinion, \$85.00 is not a very low rent, and from the information submitted by Mr. Reed and other real estate representatives there are a lot of houses and apartments available renting from \$90.00 to \$150.00 a month; but there are a lot of people in the City of Pittsburgh who are still earning 75 cents an hour and are not able to pay those high rents. As far as I am concerned the presentations made by Robert Lieberman, representing the Pittsburgh Central Labor Union, Milton Weisberg, of the C. I. O., William J. Tepsic, Commander, Allegheny County Veterans of Foreign Wars, Joseph Watson, Post 913, The American Legion, Curtis Haube, Disabled American Veterans, Edward Bolster, Pittsburgh Chapter, Americans for Democratic Action, and many individuals, convince me that we have a lot of slum housing in the City of Pittsburgh, and the rents are very high.

As a result of all the information supplied Council, I feel it is incumbent upon me to make my position clear, that there is in the City of Pittsburgh still a great need to continue rent control, and there isn't any doubt about it that Pittsburgh and Allegheny County are great defense centers of the Nation; in fact, we were known in World War II as the Arsenal of Democracy. We have a lot of defense workers here.

Congress should have done the job, but they passed the "buck" and it is up to the Council of the City of Pittsburgh and the many boroughs and townships and municipalities in this State as well as the other 47 States to enact legislation for the continuance of rental control until April 1953.

I want to make my position clear that I am in favor of this ordinance presented by President Gallagher.

Mr. Rodgers arose and said:

Mr. President, at the public hearing.

"which you so ably described," I got the definite impression, bolstered by my own experience and research, that there is a substantial shortage of houses in Pittsburgh. Therefore, I feel it is incumbent upon us to vote to extend rent control as provided by this bill.

And the bill, as read a second time, was agreed to.

Mr. Weir moved

A suspension of the rule to allow the third reading and final passage of the bill.

Which motion prevailed.

And the bill was read a third time and agreed to.

And the title of the bill was read and agreed to.

And on the question, "Shall the bill pass finally?"

The ayes and noes were taken agreeably to law, and were:

Ayes:—Messrs.

Counahan	Schifano
Davis	Weir
Dinan	Fagan, (Pres't
Rodgers	Pro tem).

Ayes 7. Noes none.

MOTIONS AND RESOLUTIONS

Mr. Davis at this time presented

No. 1239. An Ordinance authorizing the issuance of a warrant in favor of The Republic Rubber Company of Pittsburgh in the sum of \$158.87 for services rendered the Bureau of Fire without previous authority of law.

Which was read and referred to the Committee on Finance.

The Chair (Mr. Fagan): said:

Gentlemen of Council, a long time ago, we had, in this country, a fellow by the name of Al Reeves whose favorite comment was, "Give me credit, boys." Well, this administration, headed by Mayor David L. Lawrence, and Miss Anne X. Alpern, City Solicitor in charge of the Department of Law, are entitled to some little credit for the

splendid work being done, especially by the Law Department, before the Public Utility Commission and the higher courts of our State. There is no doubt that the services performed by the Law Department in rate cases is outstanding.

Had not the City protested the telephone and gas rates would have been increased over and above what they are today.

For myself, I want to publicly commend the Mayor and his cabinet members for holding down what we claim is unfair rates for street cars, gas, electricity, and telephone service. I have always believed in the law of supply and demand. I think that every corporation is entitled to a fair return on its capital investment. People invest money with the understanding that they are going to get a profit or fair return. They are entitled to it. Corporations are entitled to a profit; but when they start to gouge and demand unfair profits, then the Public Utility Commission should give the municipalities an opportunity to present their case in a proper manner.

Then, there is nothing left for us to do but to fight fairly, honestly, legally and consistently. If a utility company is entitled to an increase in rates, we have to go along with the decision of the Public Utility Commission until there is an opportunity to present our case.

The Mayor and Miss Alpern in particular have waged a valiant fight and saved consumers millions of dollars. This has been done without help from other municipalities. The full burden of fighting these rate cases has been placed upon the citizens of Pittsburgh. Because of the splendid work being done by Miss Alpern and her associates in the Law Department for all of the citizens of our community, they are entitled to commendation.

Mr. Weir moved

That the minutes of Council of Monday, July 21, and Wednesday, July 23, 1952, be approved.

Which motion prevailed.

And on motion of Mr. Weir

Council adjourned.

Whereas, It was discovered that a fire existed in an exposed coal bed located south of Bigelow boulevard and north of Bedford Dwellings in the City of Pittsburgh; and

Whereas, Pursuant to Ordinance No. 161, approved April 24, 1952, an agreement was executed between the United States Department of Interior, Bureau of Mines and the City of Pittsburgh, providing for exploration to determine the extent and seriousness of the mine fire; and

Council of the City of
Pittsburgh.

In re: Bill No. 1244—Ordinance authorizing warrant in favor of Martin Red Ball Parking Meters for the sum of \$27,916.58.

Gentlemen:

The above Bill is an ordinance authorizing the issuance of a warrant in favor of Martin Red Ball Parking Meters of Benton, Illinois for the sum of \$27,916.58. This represents a balance due of \$29,385.87, less a 5% discount, in accordance with the terms of Purchase Proposal 370-50 for the purchase and installation of 758 parking meters in the City of Pittsburgh.

The meters have been installed and approved by the Bureau of Traffic Planning of the City of Pittsburgh. The money to be expended in payment of the bill will be supplied by the Pittsburgh Parking Authority and the Parking Authority desires to take advantage of the 5% discount, which will be allowed if the entire balance due is paid at once rather than in installments.

CITY OF PITTSBURGH

Department of City Planning

To: Committee on Public Works

From: C. Ronal Wood, Director

Date: September 18, 1952

Subject: Ordinance—Fixing the Width and Position—Establishing the Grade—Lieb way, 27th Ward (Dept. Public Works letter to Council, August 27, 1952)

The City Planning Commission, at its regular meeting held September 18, 1952, considered the ordinance:

"Fixing the width and position of the sidewalk and roadway, and re-establishing the grade of Lieb way from McCook street to Jawett way" which was referred to this department by your office.

The Planning Commission APPROVED the re-establishing of the grade, because:

- (a) it will provide for a better connection with McCook street as now improved; and
- (b) the maximum grade is only 3.5%.

However, the Commission DISAPPROVED the fixing of the width and position of the sidewalks and roadway, because:

- (a) the 20-foot way is inadequate to provide both sidewalk and roadway;
- (b) the paving of the full width of the 20-foot way is desirable in the interest of proper circulation, and access to and from garages and rears of other properties abutting the way; and
- (c) the presence of alley dwellings is an undesirable condition and does not justify curtailment of circulation and access facilities, and thus increase the hazards.

Yours very truly,

C. Ronal Woods,

Planning Director.

Mr. President: It is my sad duty to announce the death of Cornelius Decatur Scully, former City Solicitor, former member of this Body and President of this Body, and former Mayor of the City of Pittsburgh, and our friend.

Mr. Rodgers moved

That a special committee be appointed to prepare an appropriate resolution memorializing Cornelius D. Scully.

Which motion prevailed.

The Chair appointed Messrs.: Fagan, Rodgers, Schifano to prepare a memorial resolution on the death of Cornelius D. Scully.

The Chair: I might add there is a very nice editorial in the Pittsburgh Catholic on the death of Cornelius D. Scully, which is as follows:

WAR-TIME MAYOR—

The death this week of Cornelius D. Scully, who was Mayor of Pittsburgh for a longer period than any of his predecessors, from 1936 to 1946, recalls that he steered the city's course through some of its most difficult times—the days of recovery from depression, of labor unrest, of Communist disturbance, and of the crises of World War II, and with marked success. He was of the non-dramatic, undemonstrative type, and yet under his administration Pittsburgh escaped the upheavals and discord experienced by cities that had more exciting and excitable leaders.

Mr. Fagan moved

That Mr. Wolk be excused for absence from the meeting of Council. Monday, September 29, 1952.

Which motion prevailed.

Mr. Fagan moved

Rodgers	

Mr. Rodgers:

On behalf of the Special Committee appointed by this body, I wish to present a resolution commemorating the life and service of former Mayor Cornelius D. Scully.

Mr. Rodgers presented

No. 1479.

Whereas, It has pleased Almighty God in His infinite wisdom to remove from our midst our associate and good friend, Cornelius Decatur Scully.

Mr. Scully was born in Chartiers Township, now the 28th Ward of the City of Pittsburgh, in 1878. He attended the Windgap School, Pittsburgh Central High School, the University of Pennsylvania and the University of Pittsburgh. He was admitted to the Bar of the local and State courts in 1904, and engaged in active practice in this community for many years.

He was appointed City Solicitor of Pittsburgh in 1934. On December 26, 1935, he was elected to this Council

to fill a vacancy caused by the resignation of John J. Kane upon his election as County Commissioner. On January 6, 1936, he was elected President of Council, and on October 19, 1936, was elevated to the position of Mayor of this city. He was subsequently re-elected by the people for two successive terms. His tenure of ten years and two months was longer than that of any previous Mayor of the City of Pittsburgh.

Throughout his life Dick Scully was guided by a deep love for this city and its citizens. He took a great pride in its beauties; its spirit and its accomplishments; yet he did not blind himself to the faults of his native city. He saw her ugly slums, her blighted areas where neglected outmoded buildings were choking the life of the community and discouraging development. He saw the need for parks and playgrounds, for better housing, and the lack of cultural opportunities. Overall, he saw the blight of smoke. In the dark depression days of the early 1930's Mayor Scully refused to accept the gloomy view. While Mayor he pressed forward with plans for the alleviation of suffering; for the advancement of health and sanitation; for the development of adequate housing, and for the real awakening of the spiritual life of this city.

During his term as Mayor he was able to carry into effect many of his visions of civic improvement. It was during his term and in large measure due to his courageous support, that the City of Pittsburgh was able to initiate the anti-smoke program. Of the vast public improvements which are only now beginning to reach their culmination, many had their birth in his love for this city and his dreams of beautification.

It is with deep sorrow that we mourn the loss of this great public servant.

Therefore, be it

Resolved, That the Mayor and the members of Council of the City of Pittsburgh express our deep sense of loss upon the death of Cornelius Decatur Scully, and that we acknowledge our debt to him for his untiring ef-

forts, keen judgment and hearty co-operation, and the able discharge of all of the obligations which fell upon him, and that we give full recognition to the lasting contributions made by him to the enrichment of our civic life.

It is further

Resolved, That these resolutions be spread in full upon the records of Council and that an engrossed copy thereof be transmitted to his family.

Which was read.

Mr. Rodgers moved

The adoption of the resolution by a rising vote.

Which motion prevailed.

Mr. Davis moved

That Council adjourn out of respect to the memory of Cornelius D. Scully.

Which motion prevailed.

And

Council adjourned.

1911, P. L. 461, provides that all appropriations shall be made annually by general ordinance except in cases of emergency when special appropriations may be made to meet the same; and

Whereas, the Director of the Department of Public Safety in letters addressed to the Deputy Mayor and the City Controller, under date of September 5, 1952, has stated that when the 1952 Salary Ordinance was prepared the sum of \$3,496.00 was erroneously allocated to Code Account No. 1489—wages, temporary employees, instead of to Code Account No. 1488—salaries, regular employees, both with the Bureau of Traffic Planning of the Department of Public Safety; and

Whereas, The foregoing appears to be a good and sufficient reason to impel the certification of an emergency under the circumstances;

Now, Therefore, We, Howard B. Stewart, Deputy Mayor of the City of Pittsburgh, and Edward R. Frey, Controller of the City of Pittsburgh, do hereby certify to Council of the City of Pittsburgh the existence of an emergency requiring the transfer of \$3,496.00 from Code Account No. 1489—Wages, temporary employees, to Code Account No. 1488—Salaries, regular employees, both within the Bureau of Traffic Planning of the Department of Public Safety, for the purpose above set forth.

CITY OF PITTSBURGH CERTIFICATE OF EMERGENCY

Whereas, Article XIV, Section 13 of the Act of March 7, 1901, P. L. 20, as amended by the Act of May 31, 1911, P. L. 461, provides that all appropriations shall be made annually by general ordinances except in cases of emergency when special appropriations may be made to meet the same; and

Whereas, The Director of the Department of Public Health in letters addressed to the Deputy Mayor and the City Controller, through his Deputy Director, Carl C. Kuehn, M. D., under date of September 17, 1952, has stated that an emergency has arisen in the Program of Cancer Control making it necessary to hire an additional person to be known as "Secretary-Cancer Control," at the rate of \$10.33 per diem, for the reason that many of the X-rays that have been taken indicate that tumors are present in the patients' lungs. There has been no follow-up of these cases and it is essential that the patients and their physicians

should be notified of this condition. Further, it is understood that the back-log of cases that has accumulated be given attention now before the additional cancer suspects are revealed by the mass chest survey; and

Whereas, The foregoing appears to be a good and sufficient reason to impel the certification of an emergency under the circumstances;

Now, Therefore, We, Howard B. Stewart, Deputy Mayor of the City of Pittsburgh, and Edward R. Frey, Controller of the City of Pittsburgh, do hereby certify to Council of the City of Pittsburgh the existence of an emergency requiring the employment of an additional person to be known as "Secretary-Cancer Control," at the rate of \$10.33 per diem, for the purpose herein above set forth.

MOTIONS AND RESOLUTIONS

The Chair presented

No. 1546.

Whereas, The history of the City of Pittsburgh dates from the year One Thousand Seven Hundred Fifty-eight (1758) when the British took possession of the point at the junction of the Allegheny and Monongahela Rivers and when General John Forbes gave to the village the name of Pittsburgh; and

Whereas, It is entirely fitting and proper that the two hundred anniversary of the City of Pittsburgh be observed in the year One Thousand Nine Hundred Fifty-eight (1958), and that on such occasion citizens of the City be reminded of the accomplishments of the past and asked to take stock of future accomplishments to be carried out; and

Whereas, On Pittsburgh's next anni-

versary, its bi-centennial, it will be desirable to celebrate not only two hundred (200) years of existence and growth, but also the completion of such major projects as the Penn-Lincoln Parkway with its two new bridges, the Point Park, and the many other governmental and private improvements now being constructed or scheduled to begin in the near future; and

Whereas, It is necessary that plans for the celebration of the bi-centennial be prepared well in advance of the actual date of the anniversary;

Now, therefore, be it

Resolved, That Council of the City of Pittsburgh hereby declares that the year One Thousand Nine Hundred Fifty-eight (1958) shall be declared as the year of Pittsburgh's bi-centennial; and be it further

Resolved, That there is hereby appointed a committee of ten (10) persons, composed of Mayor David L. Lawrence, as Chairman, and nine (9) other citizens of the City to be appointed by him, which committee shall begin preparations for observance of the bi-centennial of Pittsburgh, with particular emphasis on completion of major public and private improvements in the Pittsburgh area prior to the year One Thousand Nine Hundred Fifty-eight (1958).

Whereas, The Allegheny Conference on Community Development has agreed to act in and advisory and contracting capacity in this matter, at the request

of the Foundation, and to make this gift of the said audio-distribution system to the City of Pittsburgh on behalf of the Foundation; and

Whereas, The Council of the City of Pittsburgh desires to accept this gift of the Sarah Mellon Scaife Foundation:

Now, therefore, be it

Resolved, That the Council of the City of Pittsburgh, on behalf of the City of Pittsburgh, does hereby accept the generous gift of the Sarah Mellon Scaife Foundation, as above stated, upon the following terms and conditions:

And be it further

Resolved, That the Council of the City of Pittsburgh express its sincere appreciation to the Sarah Mellon Scaife Foundation and to the Allegheny Conference on Community Development, acting on the Foundation's behalf, for this generous gift to the citizens of Pittsburgh; and that a copy of this resolution be transmitted to the Sarah Mellon Scaife Foundation and the Allegheny Conference on Community Development.

DEPARTMENT OF LAW

Pittsburgh, Pa.,
October 17, 1952.

The Honorable,
The Council of the
City of Pittsburgh
Gentlemen:

In Re:

City's Liability to Utilities in the
Redevelopment of the Hazelwood Area

In response to your request of Oct. 15 concerning the above subject, this Department has examined and considered Bills Nos. 1582 and 1583. We are of the opinion that those ordinances are in proper form and fully authorize the agreement between the Urban Redevelopment Authority and the City of Pittsburgh.

We have examined the agreement between the Urban Redevelopment Authority and Jones & Laughlin Steel Corporation and that between the Urban Redevelopment Authority and the City of Pittsburgh, both relating to the redevelopment by the corporation of the 15th Ward, Hazelwood avenue, area. We are of the opinion that the City is fully protected against claims for damages arising out of the necessity for the location, relocation, construction and reconstruction of facilities maintained by the public utility companies within the redevelopment areas outlined in the ordinances.

We have read the communications from the utilities and are unsympathetic with their requests that the ordinances and agreements be amended to provide for their reimbursement if put to expense by the redevelopment. We think their right to reimbursement, if any, should be determined by the courts.

Very truly yours,

J. F. McKenna, Jr.,
First Assistant
City Solicitor.

Which was read, received and filed.

Mr. Fagan:

Mr. President: I do not have the slightest reason to doubt the ability of Mr. McKenna to pass on these important matters, but I think action on this legislation should be delayed until it has the approval of Anne X. Alpern, who is in charge of the Department of Law of the City of Pittsburgh.

Mr. Rodgers:

Mr. President: On that subject, I should like to say that Mr. McKenna has made a thorough study of the matter, and I, for one, would be inclined to accept his recommendation.

Mr. Fagan:

Mr. President: In order that I might make myself clear, I said I have no doubt as to the legal ability of the signer of the document, but I think, for myself—I do not care what the other members do—in order to have this thing properly before Council and have the opinion of the Law Department, I think we should have Miss Alpern's approval. After all, there is a lot involved in this entire matter, and it may, before it is over, become a serious legal question for the City of Pittsburgh.

We all know that the utilities are powerful corporations and they have the best legal talent that is possible for them to secure. I think Mr. McKenna is an outstanding lawyer and knows what he is talking about; but for my own protection, I think the matter should be held up until we receive Miss Alpern's approval, even if it is necessary to recess Council until some time today or tomorrow or Wednesday.

The Chair:

Mr. Fagan, do you want to put that in the form of a motion?

Mr. Fagan moved

That Bill No. 1582, File No. 988 and Bill No. 1583, File No. 989 be laid over pending receipt of approval by the City Solicitor.

Mr. Rodgers:

Mr. President: In view of the explanation given by Mr. Fagan, I desire to second the motion.

DEPARTMENT OF LAW

October 21, 1952.

The Honorable, The Council
of the City of Pittsburgh.

Gentlemen:

On October 17, 1952, an opinion was submitted to Council by J. Frank McKenna, Jr., First Assistant City Solicitor, in the absence of the City Solicitor, advising that Bills Nos. 1582 and 1583 were in proper form for enactment by City Council.

At your request, I have examined the bills in question and find that in the Cooperation Agreement between the Urban Redevelopment Authority and the City of Pittsburgh, Section 1-B, there appears the following paragraph:

"B. The Authority agrees:

"(1) To enter into a Redevelopment Contract whereby the Redeveloper will indemnify and save harmless the City or the Authority from any claims, demands, or causes of action whatsoever, if any, arising by

reason of the necessity for the location, relocation, construction and reconstruction of facilities maintained by public utility companies within the Contract Redevelopment Areas and without said areas to the extent made necessary by either the construction to be undertaken by the Redeveloper in the Contract Redevelopment Areas or in the vacation of the streets and alleys in said areas, provided, however, that this undertaking shall not be construed so as to enlarge any rights of said utility companies."

Pursuant to the proposed agreement between the Urban Redevelopment Authority and the Jones & Laughlin Steel Corporation, Jones & Laughlin agrees as follows (Article VIII, Sec. B):

" . . . to indemnify and save harmless the City or the Authority from any claims, demands . . . arising by reason of the location, relocation, construction and reconstruction of facilities maintained by public utility companies within the Contract Redevelopment Areas . . ."

In the light of these express provisions, it is clear that the City of Pittsburgh is fully protected against any claim for damages arising by reason of the relocation of any utility.

We have been advised that certain of the utility companies have asked that the contract with Jones & Laughlin contain a specific provision for reimbursement of the utility companies for the cost of relocation of utilities. This question is one we feel should be answered by the courts and not by City Council, since we are dealing in a field which has not had judicial interpretation with respect to redevelopment contracts. The utilities can protect themselves adequately by instituting the necessary proceedings. Nor will they be in any manner prejudiced by reason of the provisions contained in the contract with the City of Pittsburgh, since they are limited solely in their effect to the City.

I therefore concur in the conclusions reached by Mr. McKenna when he approved Bills Nos. 1582 and 1583 for

enactment by Council.

Sincerely,

ANNE X. ALPERN,
City Solicitor.

MOTIONS AND RESOLUTIONS

The Chair:

Gentlemen: Yesterday the people of the United States were shocked upon learning of the sudden death of Philip Murray, President of the Congress of Industrial Organizations, and the Steel Workers Organization.

In order that Council today may take appropriate action on the death of this great Christian gentleman and labor leader, I have asked Messrs. Fagan, Davis and Dinan to prepare and submit to this body suitable memorial resolutions.

The Chair recognizes Mr. Fagan.

Mr. Fagan:

Mr. President and Members of Council: In conformity with the wishes of the President of Council, the

Committee, consisting of Messrs. Davis, Dinan and myself, has prepared a resolution on the death of Philip Murray.

Mr. Fagan presented

No. 1761.

Almighty God has seen fit to remove from our midst Philip Murray, a champion of all the people of America and a great individual in whom was imbued the warm humanity that motivated his entire life.

Every moment of his life was devoted to promoting the welfare and the hopes of the working people of our Nation, many thousands, of whom are part of this great industrial area of Pittsburgh.

The life he lived will long be remembered and the great humanitarian accomplishments he strove for will endear him in the hearts of millions upon millions of Americans. The memories he leaves behind will serve as an inspiration to people in all walks of life, and a yardstick for future generations as they move forward on the road to justice and equality.

In his lifelong capacity as a leader of America's working people he was one of America's great citizens. As a resident of the City of Pittsburgh for a half century, our community, especially, will feel the deep loss.

The true measure of a great man lies in his humility, because he thus attests his dependence upon God. Philip Murray was a humble man and a great man.

Now, therefore, be it

Resolved, That the Council of the City of Pittsburgh expresses its deep sympathy to Mrs. Murray and her son, Joseph, because of their great personal loss; that the citizens of this City, knowing and loving this fighter for justice, ask merciful judgment of a Divine Providence on his soul.

Which was read.

Mr. Fagan:

Mr. President: I move the adoption of the resolution and to request that the resolution be spread upon the Min-

utes of today's proceedings, and that a copy of the resolution be forwarded to the bereaved family of the late President, Philip Murray, of the Congress of Industrial Organizations, of happy memory.

Phil Murray was an outstanding citizen. He was a great American, an illustrious labor leader and a distinguished civic leader. He served on the Pittsburgh Board of Public Education for a number of years. He helped establish the wages and conditions under which school employees work today, and helped to establish the outstanding curriculum that we have in our public school system in the City of Pittsburgh.

Phil Murray was one of God's noblemen. He was the salt of the earth. This is a very sad occasion.

And the question recurring on the

adoption of the resolution, the motion prevailed by a rising vote.

Miss Millicent Leech, Teacher and Class of Students on American Government at Westinghouse High School attended the Council meeting and were welcomed by the Chair.

The Chair: Before we adjourn, I would like Councilman Rodgers to explain to the Class of students from Westinghouse High School the procedure of Council.

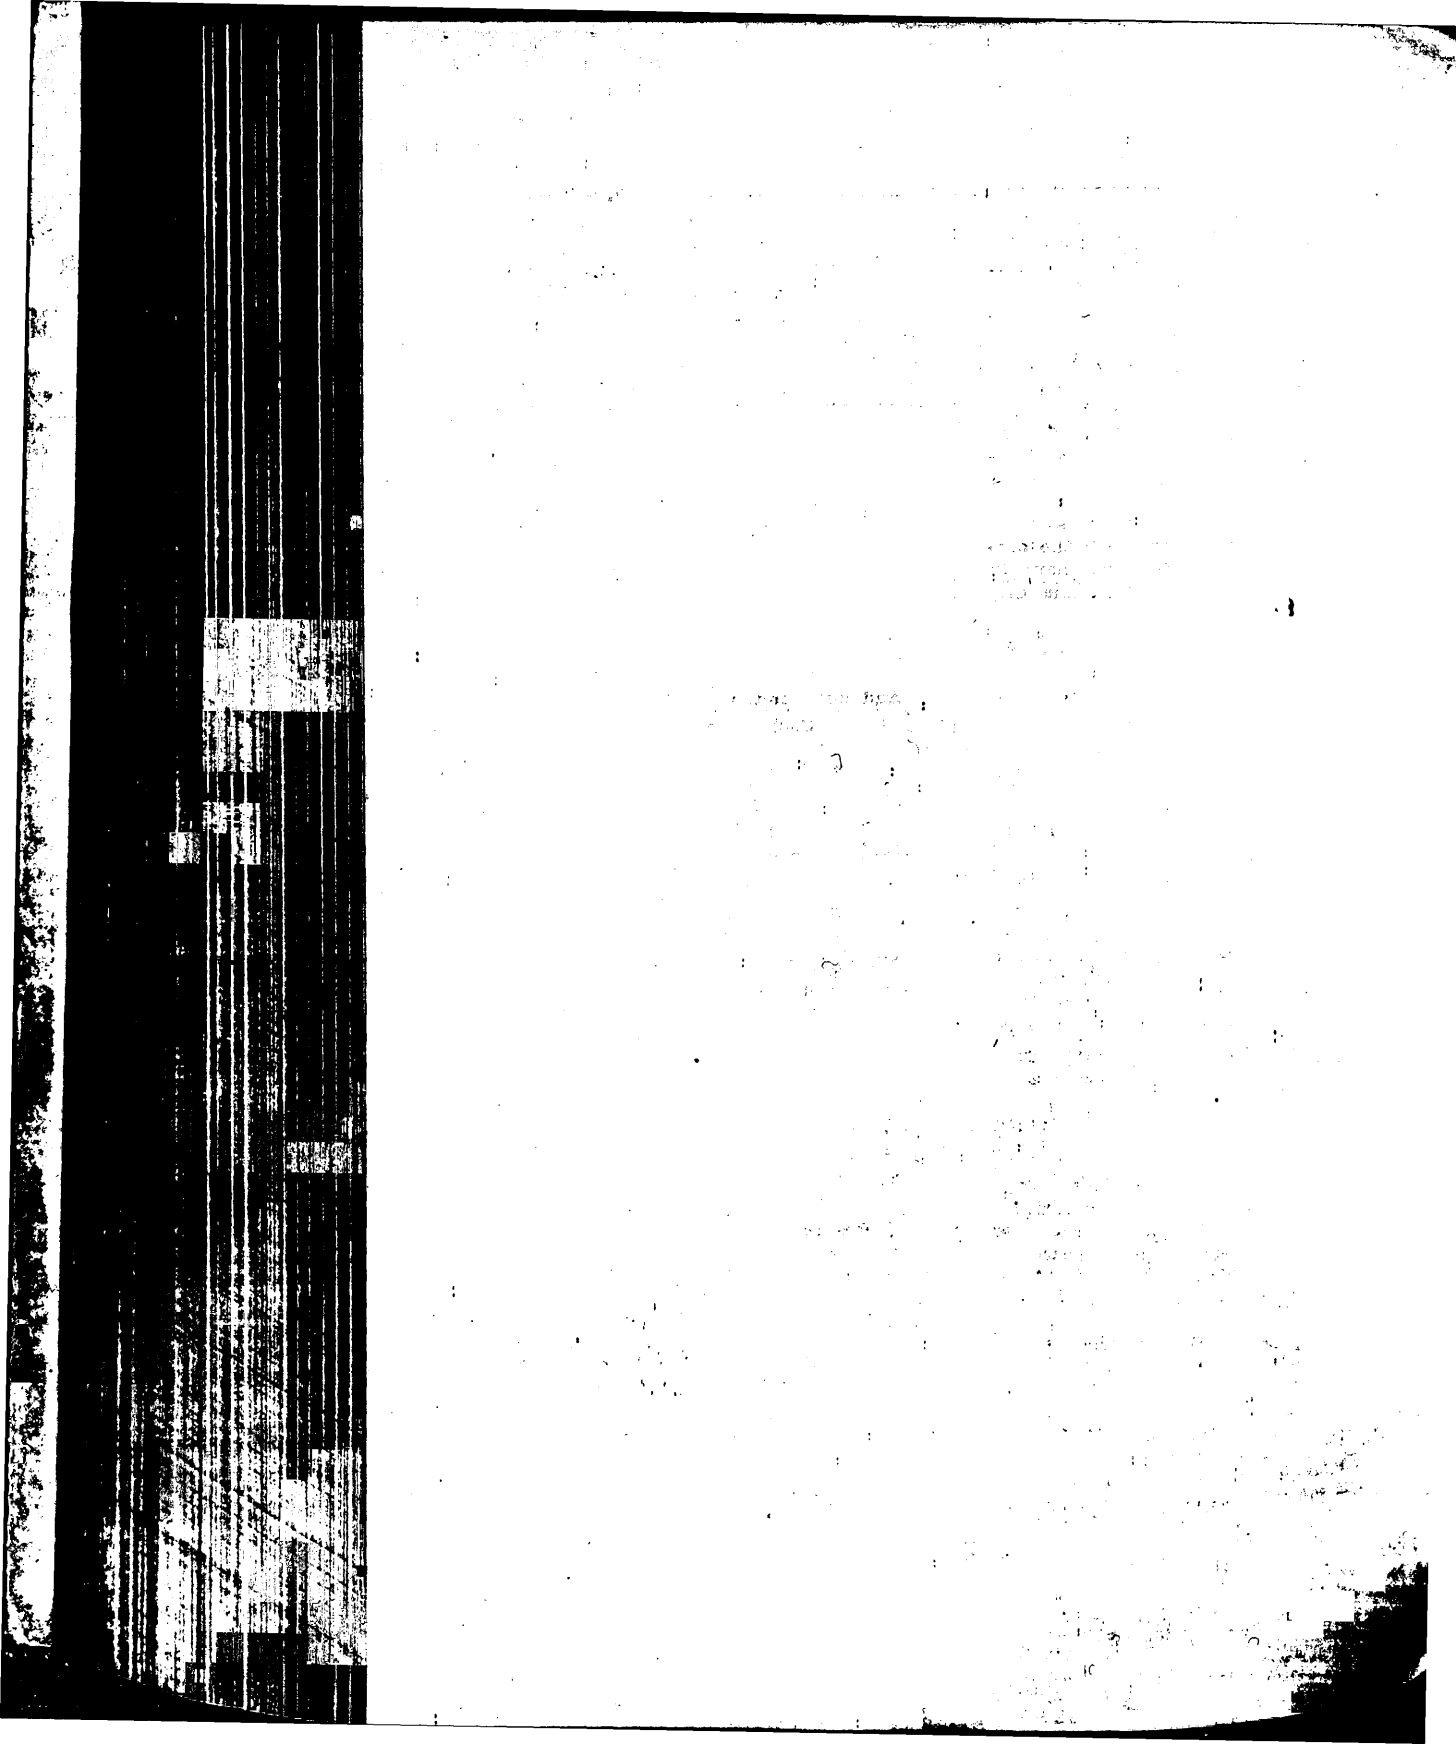

Mr. Rodgers responded by explaining the procedure of Council to the Class.

Mr. Davis moved

That the Minutes of Council of Monday, November 3, 1952, be approved.

Which motion prevailed.

And upon motion of Mr. Dinan
Council adjourned.

President and Members of Council
City of Pittsburgh

Re: Bill No. 1666

Gentlemen:

The above represents a statement submitted by Newman-Schmidt Studios in the sum of \$850.00 for making a color photograph of the City's Zone Map; also, a bill for \$18.60 payable to the Railways Express Company for transporting the map. It is recommended that the aforesaid sums be paid for the following reasons:

It is required by law that the City's Zoning Ordinance and Zone Map be recorded in the Recorder's

Office of Allegheny County, Pennsylvania.

Failure to record the same renders the Ordinance invalid and unenforceable.

There is attached hereto a copy of our letter of July 21, 1952, setting out the statute and stating the reason for the order placed with Newman-Schmidt Studios.

Respectfully,

J. F. McKenna, Jr.,
First Asst. City Solicitor.

DEPARTMENT OF LAW

July 21, 1952.

Council of the City of Pittsburgh:

Gentlemen:

By an Act of the Legislature of the Commonwealth of Pennsylvania of May 14, 1949, P. L. 134, it is required that every political subdivision in the Commonwealth shall file a copy of its Zoning Ordinance, all amendments thereto and a map or plan delineating the areas or zones.

By Act No. 613, approved January 18, 1952, it is provided that if such ordinances, maps or plans are filed within six months from the effective date of that statute they will be considered as properly filed.

To carry out the provisions of this legislation, the undersigned had recorded the basic Zoning Ordinance, as amended to date. There is only one zone map in existence. This was photographed by Newman-Schmidt Studios, 713 Penn Avenue, Pittsburgh 22, Pennsylvania. This firm was selected after the City Photographer, Mr. McCandless, had stated that he could not do the work himself and after he took several bids from other photographers, including Eastman Kodak Company.

The work performed by Newman-Schmidt Studios turned out to be quite unsatisfactory. This was due in part to the fact that they do not have sufficient time to complete the project.

The present bill of Newman-Schmidt Studios is \$600.00 for the work done.

The cost of recording the zone map

is \$960.00. This is calculated at \$20.00 per page for forty-eight pages.

On this day I conferred with the Recorder of Deeds and Mr. Newman of the firm of Newman-Schmidt Studios. Mr. Newman is anxious to repeat the work in order to get a satisfactory result. He guarantees that a satisfactory job can be accomplished on a second try. If given the opportunity for this work, the cost of the new map to the City of Pittsburgh will be \$250.00.

It is our recommendation that the additional work be authorized.

Respectfully yours,

Anne X. Alpern,
City Solicitor.

Which was read, received and filed.

The Chair:

His Honor, the Mayor, is ready to submit his budget to Council. I appoint Messrs. Fagan and Wolk to escort the Mayor to Council.

After the return of the Committee and the Mayor:

The Chair:

Members of Council and Gentlemen:
His Honor, the Mayor of Pittsburgh.

Mayor Lawrence:

President and Members of Council:

I again have the honor to present to you budget estimates for the operation of the government of the City of Pittsburgh, this time for the calendar year of 1953.

This budget is presented against the background of a city thriving as it has never done before in all of its long and productive history. Progress and new growth are all about us. The city is feverishly adjusting its environment to the demands of our time, and its industrial and commercial pre-eminence have been secured and made fast. The gloomy prophecies of only ten years ago have been completely refuted, and every citizen of Pittsburgh with the eyes to see must know what is in development here.

The city government may take an honest pride in what it has done to make possible this strengthening and improvement of all phases of our community life.

As I see the task of the Mayor and of this Council, our first duty is to make sure that this rate of progress is continued and increased. The municipal government must set the pattern for it, encourage it, and put all its energies into this successful work of redevelopment.

I challenge any critic of this administration, political or personal, to say that we have not done so. We are not now going to slacken that pace.

This budget is frankly and proudly geared to its continuance.

The best proof of what this means for Pittsburgh can be found in our gain in values. As set for tax purposes by the Allegheny County Board of Property Assessments, Appeals and Review, which alone has the power of making assessments in the city, the taxable values in Pittsburgh in 1947 were only \$961,000,000. For 1953, these valuations will reach \$1,070,000,000 or

more—a gain of better than \$100,000,000.

Almost all of this has come from newly created values, new construction.

The hope of this, and every city, must lie in adding to its collective wealth—not in taxing existing values beyond the point of diminishing returns.

That is the objective which we are successfully pursuing, with huge returns in commercial and industrial expansion, in employment, in living standards, and in financial stability for the city, the school district and the county.

I am happy to report to Council that we will close out 1952 with a sound fiscal record. The surplus for the year will reach, it is estimated, \$2,000,000, reflecting departmental economies in management and a functioning system of budget controls.

In fact, if it were not for the pressure of the times, the budget estimates for 1953 could be financed within the framework of the present tax structure plus the anticipated surplus.

The appropriations recommended for 1953 total \$42,629,591.

Estimated revenues on the existing schedules are \$40,787,000, which, plus the surplus of \$2,000,000 would bring the budget into balance.

The only "hole" which appeared in 1952's revenue estimates was the default of the state in the payment of \$475,000 due the city in reimbursement for public health services, as was projected in the public health laws passed at the 1951 legislative session.

We will vigorously press for this promised state support for our health program.

The increase in the basic budget over 1952 largely reflects increased cost of the things which the city must buy, plus increased services in such specialized areas as public safety and public health. In public safety, fire prevention work and additional fire protection personnel are provided for, and there are additional funds provided for the increasingly critical functions of traf-

fic engineering and control. Salary increments for police and firemen, standard under the terms of their employment, will cost an additional \$100,000.

We continue to carry out the improvement of our public health services, which has made such steady progress in recent years, with particular attention to public health nursing, nutrition, cancer control work and the care and prevention of tuberculosis.

To the basic budget, however, must be added provision for an increase in wages and salaries which is due city employees in order to permit them to meet the cost of living.

I therefore recommend to Council that a fund of \$1,500,000 be set up for wage and salary adjustments, and that it be distributed among the various employees of the city in a manner that will be equitable to all.

To finance such a wage and salary increase, a tax increase of two mills on land and one mill on buildings would be necessary. It should be remembered too that the surplus might be wholly or partially exhausted in the 1953 operations, if all appropriations were spent. In that case, the city would be faced with a further increase of more than three mills on land and one and one-half mills on buildings in 1954.

I think you will agree with me, as will the people of Pittsburgh, that such increases in the tax rate would be an acute hardship for the homeowners of this community and would be completely destructive of the effort we are making to bring about new investment in our city's future. The new buildings in the Triangle, the industrial expansion along the rivers, the new home and apartment construction in the residential districts, all bear evidence of this confidence in Pittsburgh. It must be maintained.

Therefore, I do not recommend a tax increase.

Nor do I think it necessary and unavoidable.

The city's financial structure, its obligations, its necessities, and its long-range fiscal planning must be consid-

ered as a whole, and from time to time, must be reviewed in its entirety.

This is such a time in our affairs. Despite all the pressures and difficulties of inflation we have been able to manage our city business prudently, without deficits and with very little increase in debt. We have prevented a sales tax, and we have prevented a wage tax—steps to which American cities from New York down to small industrial communities have been driven. We will continue to resist these "soak-the-poor" tax systems.

At this juncture, in preparation for this periodic review of our affairs, the City Council has created, and the State is issuing articles of incorporation for a Municipal Water Authority. The primary purpose of such an authority is to provide an effective mechanism for the operation of such a publicly owned utility and to bring the public water supply system into first-class operating condition. It has, of necessity, an impact upon the city's finances, and it is our duty to make the final result one which will be of greatest benefit to the city and its taxpayers of all classes.

I heartily concur in Council's action in setting up this municipal authority, and urge that an agreement between the city and the authority as to conditions of transfer be reached early in 1953.

This is a complex matter, which should be stripped down to its essentials in order to correct any misunderstandings which any citizen may have. One cannot hope to cure the deliberate distortions of malice or political partisanship. Fortunately, such malice is rare in present-day Pittsburgh, where our citizens are united in a sweeping and successful civic effort which is unprecedented in American local government. In that work, responsible Republicans share equally with responsible Democrats, and all of us place the program ahead of political advantage. It is, therefore, all the more desirable that there should be a maximum amount of public information on so important a policy decision.

These things should be made unmistakably and unquestionably clear:

The municipal water authority was unanimously recommended by a committee of Pittsburgh's ablest and most disinterested citizens.

The municipal water authority is a public body, just as much so as the Pittsburgh city government, and the water system will remain in public ownership and under public control. The water system will revert to direct city ownership when the authority's task is done. The authority membership is appointed for stated terms by City Council.

There will be no increase in water rates because of the transfer to the authority, and in those areas of Pittsburgh now served by South Pittsburgh Water Company, rates will be the same as city rates—just as they now are.

Water revenues will be used for water supply system purposes.

The water supply system will be put into first-class operating condition, and will so remain.

The city will use its receipts from the water system transfer to wipe out virtually all of its present outstanding debt.

The city will be able to keep its commitments to progress here, including the further redevelopment of the Golden Triangle and the completion of the major highway system, and the redevelopment of such areas as the Hill District, the Northside, Oakland and East Liberty.

The city will be able to proceed with its necessary housekeeping tasks, which are always with us, in the maintenance and reasonable improvement of our neighborhood streets, sewers, parks, playgrounds, health centers, and other public facilities.

In doing all this, taxes will go DOWN, not up.

Receipts from the transfer will go into the city's sinking fund, where they will be kept as an asset against debt service requirements to the benefit of the city's annual budgets. The first good effect of this will be felt in 1953.

Anticipating the use of \$2,100,000 in 1953 from the transfer payment, we can safely reduce taxes next year by one

full mill on land and one-half mill on buildings. There is no reason to doubt but that this reduction can be maintained in 1954.

The budget projected, then, for 1953 is:

Basic Appropriations	\$42,629,591
Salary and wage increases --	1,500,000

Total Expenditures	\$44,129,591
--------------------------	--------------

Revenues

(at reduced millage)	\$40,100,000
----------------------------	--------------

Estimated Surplus	2,000,000
-------------------------	-----------

Receipt from

municipal water authority -	2,100,000
-----------------------------	-----------

Total available funds.....	\$44,200,000
----------------------------	--------------

This is the first tax reduction which the city has been able to extend since 1942.

Succeeding budgets will be greatly reduced in size, because they will not include the operating costs of the water system nor a major portion of debt service requirements.

I think that it might be well at this point to debunk some mythology which has grown up around the water supply system. In the first place, while it needs a program of reconstruction, it is not in imminent danger of collapse. When you turn the tap, you get water—and it is a safe, healthy water, furnished at a lower rate than the privately owned South Pittsburgh Water System or than by the systems of our suburban communities. Second, the water system has not been a consistent source of income to the city, and until we were forced to raise the rates in 1951, had often been more of a liability than an asset. The Morris Knowles, Inc. engineering report makes that clear. In 1950, the net income from the water supply system was only \$301,000, so that in that year, if all true costs are calculated, it was actually being subsidized by the general revenues of the city. It is completely proper to put it now on a pay-its-own-way basis, neither subsidized by nor subsidizing the city's general funds. And, as I have said, we propose to do this on the basis of the present Pittsburgh water rates, which are the lowest in the area.

Another myth is that the transfer of the water system will permit the city to go on a spending spree. The opposite is true. The proceeds will be used to get the city out of a debt.

There is another error in the belief that this transfer is merely the postponement of fiscal difficulties for Pittsburgh. That is not true, provided that our debt structure from this time on is prudently managed, and provided that we continue to develop new values in Pittsburgh.

The development of Pittsburgh is the task to which this administration is dedicated. In it, it has had the help of many hands and brains and pocket-books, private and governmental, federal, state and county, and the citizen-directed Redevelopment, Parking and Housing Authorities. So long as the people of Pittsburgh trust us with responsibility, we will not slacken in this work.

It is the dominant thinking of this budget.

It is the dominant thinking of your city government.

We are sure it is the dominant thinking of every citizen of Pittsburgh who has the capacity for vision and a belief in human progress. There are still a few ox-cart minds as well as some remaining ox-cart governmental structures. May we always have the energy and the good-will to free ourselves from both.

Mr. President and Members of Council: I would like to speak very briefly on Bill No. 1723—An Ordinance that prohibits discrimination in employment because of race, color, religion, ancestry, national origin or place of birth, by employers, employment agencies, labor organizations and others; establishing a Fair Employment Practices Commission in the Division of Civic Unity; prescribing the duties and powers of the Commission, and providing penalties.

I want inserted in the record this fact, Mr. President, that after a year and a half of deliberation on the part of myself, together with Councilman A. L. Wolk, and in conjunction with the Civic Unity Council, and representatives of Organized Labor and all of the religious denominations in the City of Pittsburgh, we have finally reached the place where the legislation is now before Council.

I am very pleased that we had a public hearing on this matter and at that public hearing all of the religious denominations and representatives of Organized Labor, from the Pittsburgh Central Labor Union and from the Steel City Industrial Union Council, which represent all of the organized workers who are affiliated with the American Federation of Labor of the City of Pittsburgh and the Congress of Industrial Organizations, along with representatives of business, were present.

At that public hearing everybody spoke in favor of the passage of this legislation. I am happy, after these months of conferences, meetings and hearings, that we have finally reached the place where we will have a Fair Employment Practices law. Nobody in the City of Pittsburgh has appeared in opposition to it, and we can feel very free to vote for this particular piece of legislation, because it has the unanimous endorsement of all these various organizations.

The Chair:

Under remarks, Bill No. 1812, Resolution for the sale of the police station in Oakland, Mr. Aronson met me on the street on Friday and wanted to know if he could appear before Council on this bill. I told him that the bill had been affirmed in committee and would be up for final action today, and in order for him to appear before Council he would have to have the unanimous consent of all the members of Council. Mr. Aronson is in the Council Chamber. What is the consensus of Council in allowing him to be heard?

Mr. Weir:

I move that he be permitted to be heard.

Mr. Fagan:

Mr. President: What is the purpose of him appearing before Council? This bill now before Council was properly advertised in both the Pittsburgh Post-Gazette and the Pittsburgh Sun Telegraph, and he or anybody else who wanted to bid on the property had an opportunity to submit a bid up until the 18th day of November. At 10:00 or 11:00 o'clock on that day bids were opened. This property has been on the block for more than three years, and every time there was a sale it was properly advertised; and most of the real estate people in the City of Pitts-

burgh were notified by the Department of Lands and Buildings that there was a piece of property—the police station and comfort station in the Oakland district—that was up for sale, and up until this moment Mr. Aronson has never made a bid on this piece of property. Everything that has transpired has been in line with the law, and the matter was submitted to the Law Department, and the Clerk of Council has a letter from one of the Assistant City Solicitors saying that the transaction was legal and in line with the law. A week ago or last Tuesday the matter was submitted to Council and Council unanimously adopted the sale of the property, and so the time for bidding is passed.

Mr. Aronson said he was down in Florida when it was advertised for bids, but Mr. Aronson has a business in Oakland and has representatives there in his office and because he did not see the notice of the sale of the property, that is not our fault. Mr. Teitelbaum made a bid and was the highest bidder, and I want to say that my word is my bond. The property was sold to Mr. Teitelbaum, and because Mr. Aronson was out of the city is no fault of ours.

The Chair:

When Mr. Aronson approached me I told him I did not have the authority to change the rules, and I told him he would have to get the unanimous consent of the members of Council to speak on the bill.

Mr. Weir:

Mr. President: I had begun to make a motion, of course, not with the thought of changing my mind on the vote I cast in committee unless it would be on the basis of some fact that was not already brought out. I agree with Mr. Fagan that on the basis of the facts known to us, it would not be possible, in fairness to the successful bidder and in fairness to the City in view of the law, to change the vote, but I just thought to make it merely on the grounds that I did not want to stop the hearing, because you never can tell—he might say something of greater im-

portance than you anticipate.

I will move to permit him to speak. Of course, as you say, that would have to be carried unanimously. I do not think we should change our action.

The Chair:

We have a dissent from Mr. Fagan.

Mr. Weir:

I was not sure whether he meant it that way or merely an explanation. I agree with what Mr. Fagan has said.

The Chair:

I agree, too. As Mr. Fagan has said, the property was on the block for quite a long time, but I do not have the prerogative to say Mr. Aronson cannot speak. I am trying to conduct the meeting under parliamentary procedure.

Mr. Fagan:

Mr. President: I have no desire to shut off this man or anybody. This is not the place. We had a meeting last Tuesday. I have had a lot of conversation with him, and Mr. Aronson has told me he is going to take us into Court. That is his prerogative. I say he had ample time, because this piece of property has been for sale for more than three years and up until this very moment he has never made a bid. If you want to hear him, that is satisfactory to me. He is going to tell you he is going to make a higher bid than Mr. Teitelbaum. I say again, my word is my bond—Teitelbaum or Aronson or any other person to the contrary. That is the reason I think the case is closed. Whatever Mr. Aronson wants to say, let him say it.

Mr. Rodgers:

I call for a vote on the motion. I second the motion.

And the motion prevailed.

Mr. J. H. Aronson:

Thank you members of Council for the right of free speech. I am here as a taxpayer, I am here to say that these advertisements were not proper under the law. The statute says there has to be a copy of this advertisement in the Legal Journal. That is the law.

For some reason, in my opinion, they overlooked that. Whoever buys this property gets a bad title. Consequently we are prepared to offer more money. Mr. Fagan was not altogether right. We have negotiated on this property for more than two years. The last price given to us a short time ago was fifty thousand dollars, and Mr. Greene refused to take less than that. I offered forty thousand dollars, and with the suggestion, if it went at public sale they might get more. These two ads appeared in the paper when I was away. There are three lawyers in Council and I would like them to look into it. They did not advertise in the Legal Journal and it is necessary to have advertisements of this kind in the Legal Journal.

Mr. Davis:

When we advertise the sale of other properties, do we advertise them in the Legal Journal?

Mr. Schifano:

Would you read that portion of the Act.

Mr. Fagan:

While you were in Florida, was your office closed?

Mr. Aronson:

No, but they did not see that ad.

Mr. Fagan:

Why didn't they put in a bid? Did Mr. Greene ever send you a notice on that building?

Mr. Aronson:

I don't remember.

Mr. Haworth read as follows:

"The Act of May 3, 1909, provides that 'Hereafter in all counties of the Commonwealth having more than 500,000 inhabitants, every notice or advertisement required by law or rule of court, to be published in one or more newspapers of general circulation * * * shall also be published in the legal newspaper, etc.' This is as though the Legislature had said, 'In addition to the publication of advertisements now required by law or rules of court the advertisements shall also be published

in the legal newspaper.' It does not affect existing laws requiring the publication of legal notices. It simply adds an additional notice: Pittsburgh Legal Journal vs. Luzerne Co., 20 Pa. Super. Ct. 7 (1902).

"The provisions of the statute seem to be equivalent to saying that whenever any law enacted subsequent to May 3, 1909, or any rule of court, requires a notice to be published in one or more 'newspapers of general circulation' that notice shall, also, or in addition thereto, be published in the designated 'legal newspaper'."

Mr. Fagan:

With reference to what?

Mr. Aronson:

Anything that is required to be published at all, not only the sale of property but anything.

Mr. Rodgers moved

That Bill No. 1812 be laid on the table, and be referred to the Law Department for report. I might request that Mr. Aronson put his brief in writing and submit it to you, Mr. President.

Mr. Fagan:

Mr. President: For the information of Mr. Aronson, these are the ads that were published in the Post-Gazette.

The Chair:

In reference to your motion referring it to the Law Department, we have a letter addressed to Councilman Fagan from the Law Department, which I will ask the Clerk to read:

"December 2, 1952.

"Councilman Patrick Fagan
Council of the City of Pittsburgh
Dear Mr. Fagan:

I have before me copy of letter of Homer R. Greene, Director of the Department of Lands and Buildings, addressed to Council under date of December 2, 1952.

Mr. Greene reports that Hubert I. Teitelbaum submitted a bid of \$41,500 for certain property in the Fourth Ward, City of Pittsburgh, being known as 'Old No. 4 Police Station and a

Comfort Station.' According to Mr. Greene's letter, bids were opened on November 18, 1952, in accordance with the advertisement, and the high bid was more than the minimum price. Mr. Teitelbaum's bid was accompanied with a certified check in the sum of \$4,500.

J. H. Aronson then requested that the bidding be reopened. There is nothing in the letter to indicate that Mr. Aronson had any valid reason for asking that the bids be reopened. I was informed that Mr. Aronson was out of town at the time that the advertisement appeared in the Pittsburgh papers.

Under these circumstances, I believe there is no reason for re-advertising this property. I believe that the contract with Mr. Teitelbaum should be carried out.

Very truly yours,

J. F. McKenna,

First Asst. City Solicitor."

Mr. Rodgers:

Mr. President: That letter says he is informed by Director Greene that advertisement was made, but his attention was not called specifically to the question that was raised by Mr. Aronson. That is the reason Mr. Aronson shall specify the grounds in writing which could be referred to the Law Department for study on that point.

Mr. Schifano:

I second the motion.

Mr. Weir:

It is my belief that the law cited has no application to the situation that existed here. We are dealing with a property that was owned outright by the City of Pittsburgh. I think we could have sold it without any advertising whatever. The advertising was to place us in a position to permit a bidder to bid. I do not feel it would be fair, under the circumstances, to hold Mr. Teitelbaum up any longer. I vote no.

Mr. Davis:

Mr. President: I would like to be recorded as voting No. I would like to have a roll call.

Mr. Fagan:

Mr. President: The statement made by Councilman Weir, who is an attorney, is absolutely correct. In the first place we held this property for sixty thousand dollars for a long time and had one bidder on it, and the bidder put up hand money and then was not able to go through with it and the City of Pittsburgh retained the hand money. This is not a Treasurer's sale, it is not a Sheriff's sale. It is a piece of property belonging to the City of Pittsburgh. The School Board and the County of Allegheny do not benefit in it. The property was up for sale for fifty thousand dollars and there was no bidder. Finally I brought the matter before Council and told them we had that property and apparently were not able to dispose of it. In order to give everybody an opportunity to bid on that property we brought it down to forty thousand dollars. I advised Director Greene to advertise so anybody in the City who was interested in the piece of property, could bid on it. It was advertised in the Post-Gazette and in the Sun-Telegraph and Mr. Teitelbaum was the successful bidder and as far as I am concerned the sale is consummated.

And the question recurring on the adoption of the motion by Mr. Rodgers, that the resolution be laid on the table and be referred to the Department of Law for a report, Mr. Davis demanded a call of the ayes and noes, and the demand having been sustained the ayes and noes were taken, and were:

Ayes:—Messrs.

Rodgers

Schifano

Noes:—Messrs.

Counahan

Weir

Davis

Wolk

Dinan

Gallagher, (Pres't)

Fagan

Ayes 2. Noes 7.

And there not being a majority of the votes of Council in the affirmative, the motion did not prevail.

Mr. Rodgers:

Mr. President: It seems this is not the proper procedure here. If we are to hear testimony on this, it seems to me

it should be properly before Committee rather than before this meeting of Council.

Mr. Rodgers moved

That the bill be laid on the table, and that a time be set for hearing any testimony which may be required, and a report be requested from the Law Department.

Which motion did not prevail.

Mr. Fagan:

I agree with you, Mr. Rodgers that there should not be a hearing. This is a legislative matter. This has been thrashed out pro and con and I made a statement at the last Committee meeting and there is nothing mystifying about it. It is as clear as crystal.

Mr. Schifano:

Mr. President: There is only one feature that comes to my mind. Time and again we have said we do not act as attorneys. Mr. Weir has expressed an opinion. He is entitled to that opinion. Whether he is right or wrong, I do not know. We get our law from the Law Department. That is the reason I voted to support Mr. Rodgers on his motion.

Mr. Fagan:

Mr. President and gentlemen of Council: We get our law from the Law Department. After the matter was in Council I talked to Director Greene and said, see that all the matters are cleared up, and he went to the Law Department, and I think you have a very competent lawyer, a man who has just won a case before the State Supreme Court on the mercantile tax, and I think Mr. McKenna is a very able, competent and efficient lawyer, and he has given his opinion on this matter. The only matter that is before Council is the agreement of the bill on second reading.

Mr. Weir:

Mr. President: On second reading, I might suggest that there are avenues open to Mr. Aronson, if he or his counsel feels that a fatal legal error was made. I am sure that the Law

Department will not be closed to them or to any statement or appeal they may have. They may very easily go there and between now and the time the Mayor signs this ordinance, and if this matter of law is clear they would unquestionably advise the Mayor not to sign it. So, they are not shut out.

Mr. Aronson:

I presume everybody is trying to work for the City of Pittsburgh. Here was a property up for sixty thousand dollars, and all at once it was awarded for \$41,500. Why this hurry? You check into this and you will find this law that I brought up. If you want to make a sale and put the City up for damages then go ahead, I don't care. I will guarantee you will not sell this property—my client will pay more money.

Mr. Fagan:

Where did you get the idea this was railroaded through? This has been before Council for months.

Mr. Aronson:

Mr. Greene and I have been talking this matter over for a long time and at no time was this property offered for forty thousand dollars. If this property is advertised I do not say my client will get it. Consequently the City stands to benefit by it. I know you gentlemen are working for the City.

Mr. Fagan:

We are working for the interests of the City, and don't you infer we are not.

Mr. Dinan:

Mr. President: We have the law from the Law Department, and we are following the law from the Law Department. Let Mr. Aronson file his claim with the Law Department of the City of Pittsburgh. This bickering back and forth will get us nowhere on the bill.

And the resolution was read a third time, and upon final passage the ayes and noes were taken, and being taken were:

Ayes:—Messrs.

Counahan	Fagan
Davis	Weir
Dinan	Wolk

Noes:—Messrs.

Rodgers	Gallagher, (Pres't)
Schifano	

Ayes 6. Noes 3.

And a majority of the votes of Council being in the affirmative, the

resolution passed finally.

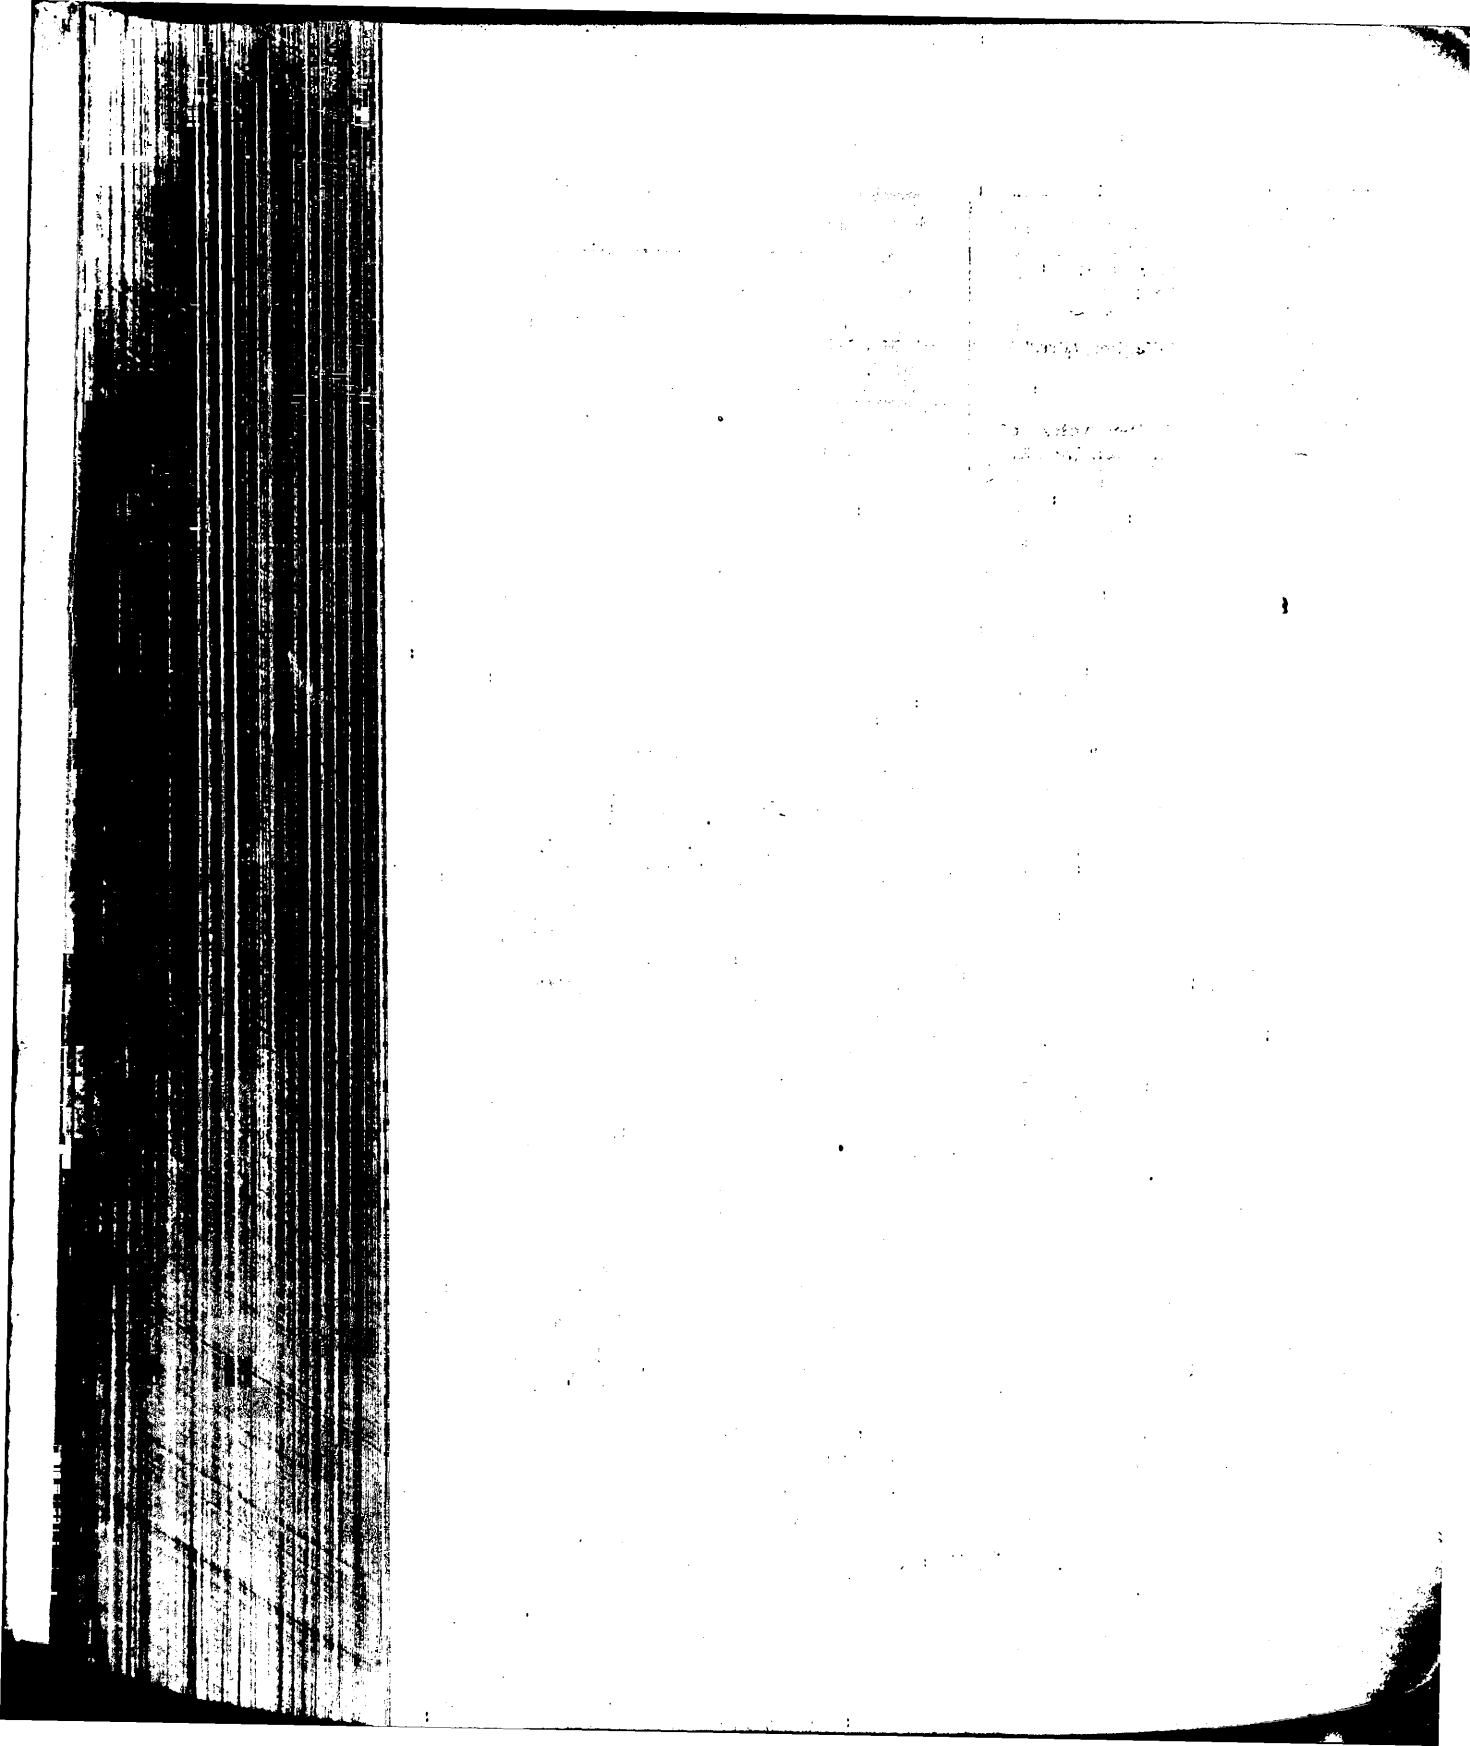

MOTIONS AND RESOLUTIONS

Mr. Dinan moved

That the Minutes of Council of Monday, December 8, 1952, be approved.

Which motion prevailed.

Mr. President: In Bill No. 1826, the Salary Ordinance, on page 18, it is purely an error—it appears all right in the original, the word "attached" should be "attained," and the word "accomplished" should be "accompanied."

PITTSBURGH REAL ESTATE BOARD

Pittsburgh, Pa., December 18, 1952.

Honorable Thomas Gallagher
President of City Council
City County Building
Pittsburgh, Pennsylvania.

Dear Mr. Gallagher:—

The Board of Governors of the Pittsburgh Real Estate Board held a meeting yesterday to discuss the proposed sale of the City's Water System to the Water Authority.

Action taken was:

1. That the Pittsburgh Real Estate Board recommends to City Council that the net proceeds to be received by Council from the Water Authority for the sale of the present Water System shall be set aside to be used only for the retirement of the existing bonded indebtedness; and, further, that said net proceeds shall be placed in a sinking fund, the income

from said fund to be used insofar as possible to pay interest on existing bonded indebtedness, and that the balance of such interest that may be due on existing bonds shall be paid out of current revenue; and,

2. That all existing bonds that may be immediately callable should be called and paid for from the net proceeds received and that the remaining existing bonds should be called and paid for as soon as the terms of each bond issue will permit.

Under the circumstances and conditions as stated, the Pittsburgh Real

Estate Board then would approve the sale of the present water system to the Water Authority.

Respectfully submitted,

Donnell D. Reed

President.

Which was read, received and filed.

Mr. Schifano moved

That Council adjourn to meet at the call of the Chair.

Which motion prevailed.

AN ORDINANCE—Granting unto The Equitable Life Assurance Society of the United States the right and privilege to construct, maintain, and use a depressed roadway across Fancourt street, in the Second Ward, Pittsburgh, Pennsylvania.

Whereas, The City of Pittsburgh by agreement with the Urban Redevelopment Authority of Pittsburgh dated March 15, 1950, agreed to vacate Fancourt street, located in the Second Ward of the City of Pittsburgh, as a part of the redevelopment of Project Area 1-B in Redevelopment Area No. 1; and

Whereas, In order to assure adequate facilities for vehicular and pedestrian traffic until Liberty avenue is relocated in accordance with the redevelopment plans, the said Fancourt street cannot at this time be so vacated; and

Whereas, The Equitable Life Assurance Society of the United States, the Redeveloper of Project Area 1-B in Redevelopment Area No. 1, must therefore construct a depressed roadway across a portion of the said Fancourt street to serve the garage under the new office buildings constructed in said Project Area; Now, Therefore,

The Council of the City of Pittsburgh hereby enacts as follows:

Section 1. That The Equitable Life Assurance Society of the United States, its successors or assigns (hereinafter called the "Grantee") is hereby given the right and privilege to construct, maintain and use, at its own cost and

expense, a depressed roadway across Fancourt street in the Second Ward, Pittsburgh, Pennsylvania.

The center line of the said depressed roadway shall be parallel to Duquesne way and shall cross Fancourt street at a distance of 29.165 feet southwardly from the southerly line of Duquesne way. The width of the said depressed roadway shall be 58.33 feet and its length from the easterly line to the westerly line of Fancourt street shall be 60.07 feet.

The said depressed roadway shall include the construction of two reinforced concrete retaining walls parallel to the center line of the depressed roadway and 54.67 feet apart. The northerly retaining wall shall support Duquesne way and the southerly retaining wall shall support the toe of an earth slope extending upward to the grade of Fancourt street. In the area at the said depressed roadway between the two retaining walls there shall be constructed two reinforced concrete driveways, each 14 feet wide; two sidewalks of varying width, one on the outside of each driveway and one mall of varying width between the driveways.

At the easterly line of Fancourt street the grade at the top of pavement adjacent to the center mall of the said driveways shall be 14.74 feet below the easterly curb grade of Fancourt street. From the easterly line of Fancourt street the profile of the said driveways shall descend westwardly on a 1.22% grade a distance of 12.80 feet to a point of vertical curvature; thence the profile of the said driveways shall continue westwardly along a vertical curve a distance of 30 feet to a point of vertical tangency; thence the profile

of the said driveways shall ascend westwardly on a 7.50% grade a distance of 17.27 feet to the westerly line of Fancourt street. At the westerly line of Fancourt street the grade at the top of pavement adjacent to the center mall of the said driveways shall be 12.52 feet below the westerly curb grade of Fancourt street.

The said roadway shall be constructed in accordance with the plan identified as Accession No. B-705 on file in the office of the Bureau of Highways and Sewers, Department of Public Works.

Section 2. The Grantee, prior to the beginning of the construction of said roadway, shall submit to the Director of the Department of Public Works a complete set of plans in triplicate showing the location and all details for the construction of said roadway; said plans and the construction of the said roadway shall be subject to the approval and supervision of the Director of the Department of Public Works.

Section 3. The right and privilege herein granted shall be subject and subordinate to the rights of the City of Pittsburgh and its powers and supervision over City streets, and also to the Ordinances of the City of Pittsburgh relating thereto, and to the provisions of any general Ordinances which have been or may be hereafter passed relating to the construction, maintenance and use of depressed roadways on City streets and compensation for same.

Section 4. The Grantee shall bear, until the vacation of Fancourt street, the full cost and expense of the repair of any street paving damaged, repair of sewers, water lines and other surface and sub-surface structures of the City of Pittsburgh which may be in any way damaged or disturbed by reason of the construction, maintenance, and use of the depressed roadway. All work, including the repaving and repairing of any portion of the street damaged shall be done in the manner and at such times as the said Director may order and be subject to his approval and supervision.

Section 5. The rights and privileges granted by this Ordinance and the

obligations, and liabilities imposed on the Grantee hereunder, shall terminate upon the vacation of Fancourt street, except for rights and privileges and obligations and liabilities which have accrued prior to the said vacation, in accordance with the Cooperation Agreement dated March 15, 1950, between the City of Pittsburgh and the Urban Redevelopment Authority of Pittsburgh.

Section 6. The Grantee assumes all liability, if any, of the City of Pittsburgh arising out of the exercises by the Grantee of the privileges and obligations under this Ordinance.

Section 7. The Grantee agrees to provide, until the vacation of Fancourt street, an adequate pedestrian foot bridge located either on Fancourt street or on the adjoining property of Grantee to facilitate the movement of the public between Duquesne way and Fancourt street. The plans for the construction of said foot bridge shall be approved by the proper officials of the City of Pittsburgh.

Section 8. The foregoing rights and privileges are granted subject to all the foregoing conditions and to the further condition that this Ordinance shall become null and void unless within thirty (30) days after the passage and approval of the Ordinance, the Grantee shall file with the City Controller its certificate of acceptance duly executed.

No. 311

AN ORDINANCE — Authorizing the Mayor and the Director of the Department of Public Works to execute a long-term agreement with the Allegheny County Sanitary Authority and the United States of America for sewage treatment and disposal service to the Aspinwall Veterans Administration Hospital by the Sewage Disposal System that will serve the City of Pittsburgh, and providing charges therefor.

The Council of the City of Pittsburgh hereby enacts as follows:

Section 1. That the Mayor and the Director of the Department of Public Works are hereby authorized and directed to execute and deliver, for and in behalf of the City of Pittsburgh, an agreement with the Allegheny County Sanitary Authority and the United States of America in substantially the following form:

This Agreement made and entered into this ____ day of _____, 1952, by and among the City of Pittsburgh, Pennsylvania, a municipal corporation of the Commonwealth of Pennsylvania (hereinafter called the "City"), the Allegheny County Sanitary Authority, Pittsburgh, Pennsylvania, a body corporate and politic of the Commonwealth of Pennsylvania (hereinafter called the "Contractor") and the United States of America (hereinafter called the "Government"), represented by the Supply Officer, Veterans Administration Hospital, Aspinwall, Pennsylvania (hereinafter called the "Contracting Officer").

WITNESSETH:

Whereas, It is necessary that the Government procure sewage treatment and disposal service for the Veterans Administration Hospital, Aspinwall, Pennsylvania, as may be required; and

Whereas, The hospital has no sewage treatment facilities but discharges its sewage, by agreement with the Borough of Aspinwall, into the Aspinwall sewerage system, and there through into the Allegheny River above Pittsburgh; and

Whereas, The Government desires to have the sewage of the hospital treated and disposed of in such manner as will satisfy the requirements of the State Board, and has decided that it would be more advantageous to receive sewage service from the Contractor than to build and operate a sewage treatment plant for the hospital; and

Whereas, The Contractor or its successor will be in a position to furnish the required service when the Sewage Disposal System now being designed by the Contractor is constructed and put into operation; and

Whereas, The Government is willing to compensate the Contractor for providing the required service.

NOW, THEREFORE, THE PARTIES
AGREE AS FOLLOWS:

Article 1—METERS. The Government will provide for the water meters or other water-measuring devices necessary to measure the flow of water on or in Government property which water will be disposed into the Contractor's interceptor sewer when it becomes waste, and said meters or measuring devices shall be subject to the approval of the Contractor. The Government shall permit the Contractor or its designate to read the meters or measuring devices periodically. If, for any reason, the Contractor shall not obtain such water quantity data for any billing period, it shall have the right to estimate the same and to use such estimated quantity in computing its charges.

Article 2—SERVICE. The Contractor shall furnish collection, treatment and

disposal service for all sewage originating within the boundaries of the Government property in any present and foreseeable future quantities and will accept such sewage into its interceptor sewers, transport such sewage and waste to its treatment plant and provide such treatment and disposal thereof as may be required by law, provided, however, the Contractor shall have the right to refuse to accept for treatment and disposal the sewage of any future plant or building, if, in the judgment of the Contractor, the quantity of such additional sewage would overload its interceptor sewer, provided further, that the Contractor may refuse to accept any wastes (i. e., specified oils, acids, toxic wastes, etc.) which in its opinion may be harmful to its sewage facilities or may interfere with the sewage treatment processes at its plant. The Contractor will notify the Government in writing of any unacceptable wastes from time to time and upon such notification the Government will pre-treat such wastes before disposing into the Contractor's interceptor sewer. The pre-treatment process shall be subject to approval by the Contractor. Such wastes as are not amenable to satisfactory pre-treatment, in the opinion of the Contractor, shall be excluded.

Article 3—DELIVERY. The point of delivery of service will be at the Contractor's interceptor sewer where said sewer connects with the Borough of Aspinwall, Pennsylvania, sewer line.

Article 4—RATES. The rates for sewage treatment and disposal service shall be uniform for all customers within the original service area and shall be so calculated as to yield sufficient revenue to pay the Contractor's current operating expenses and debt requirements. It is estimated that at present levels of construction cost and bond interest, the initial rates, which will be based on the quantity of water measured through the meters cited in Article 1, above, will be in accordance with the following schedule:

Charge per 1,000 gal.

For the first 100,000 gallons of
water used per quarter year.....20c

For the next 1,000,000 gallons of
water used per quarter year----16c

For the next 2,250,000 gallons of
water used per quarter year----12c

For all over 3,350,000 gallons of
water used per quarter year---- 8c

Article 5—CHANGES IN RATES. The rates in Article 4, above, shall not be in excess of those charged the general public for similar service and shall be subject to any changes duly made in accordance with law during the period of this contract.

Article 6—PERIOD OF CONTRACT. The period of time covered by this contract shall be from the date of acceptance thereof, and shall continue thereafter until further notice, subject to the availability of appropriations.

Article 7—PAYMENT. The Government will be billed monthly, quarterly, semi-annually or annually, at the option of the Contractor. Payment for services shall be from the date of the first sewage treatment and disposal service and shall be made after service has been rendered upon submission of properly prepared vouchers by the Contractor.

Article 8—DEFINITIONS. (a) "Contracting Officer" refers to the Supply Officer of the Veterans Administration Hospital, Aspinwall, Pennsylvania, or his duly appointed successors and their authorized representatives and any other duly authorized representatives of the Administrator of Veterans Affairs.

(b) "Contractor" refers to the Allegheny County Sanitary Authority, Pittsburgh, Pennsylvania, or its successors, whether it be the City, or any other lawful instrumentality designated by the City.

Article 9 — NON-DISCRIMINATION CLAUSE. The Contractor agrees that in performing this contract, he will not discriminate against any employee or applicant for employment because of race, creed, color or national origin, and that he will include a similar provision in all of his subcontracts.

Article 10—OFFICIALS NOT TO BENEFIT. No member of or delegate to

Congress or resident commissioner shall be admitted to any share or part of this contract or to any benefit that may arise therefrom, but this provision shall not be construed to extend to this contract if made with a corporation for its general benefit.

Article 11—TAXES: (a) Rates for sewage treatment and disposal service are exclusive of any sales or use tax imposed by state, or by any duly constituted taxing authority therein having jurisdiction to impose such a tax on the articles named in this agreement, the United States not being liable for payment of such tax (Public No. 819—76th Congress, approved October 9, 1940).

(b) Rates include any applicable Federal Excise Taxes, as the United States is not exempt from payment of such taxes.

Article 12—SUCCESSOR TO CONTRACTOR. It is understood that under the agreement of August 1, 1949, between the Contractor and the City for the design of the Sewage Disposal System, the City will designate the agency which will construct and operate the Sewage Disposal System, and that such agency may be the Contractor, the City itself or any other lawful instrumentality. The City agrees that the agency so designated, if other than the Contractor, will be bound to obligations of the Contractor under this contract, and will notify the Government in writing of such designated agency; the Government hereby consents to be bound by this contract as if such designated agency were the Contractor.

Article 13 — TERMINATION. This agreement, if accepted, shall become a contract and shall remain in force during the period above stated unless terminated at the request of either party after ninety (90) days notice in writing or as mutually agreed upon except that in the event the Veterans Administration closes this activity subsequent to the execution of this contract or during the contractual period, this contract may be canceled immediately upon written notice to the Contractor and the Veterans Administra-

tion relieved from its obligation to make further purchases of supplies or services thereunder.

IN WITNESS WHEREOF, The parties hereto have executed this contract as of the day and year first above written, pursuant to City of Pittsburgh Ordinance No. _____, approved _____, 1952; Allegheny County Sanitary Authority Board resolution adopted _____, 1952; and Executive Order 5398, July, 1930, under authorization of the Act of Congress, approved July 3, 1930, (46 Stat. 1016; 380.S.C.11), Manual of Organization of the Veterans Administration, MEC4:

No. 312

AN ORDINANCE — Authorizing the Mayor and the Director of the Department of Public Works to execute a long-term agreement with the Allegheny County Sanitary Authority and Commonwealth of Pennsylvania for sewage treatment and disposal service to the Woodville State Hospital by the Sewage Disposal System that will serve the City of Pittsburgh, and providing charges therefor.

The Council of the City of Pittsburgh hereby enacts as follows:

Section 1. That the Mayor and the Director of the Department of Public Works are hereby authorized and directed to execute and deliver, for and in behalf of the City of Pittsburgh, an agreement with the Allegheny County Sanitary Authority and the Commonwealth of Pennsylvania in substantially the following form:

Woodville.

A G R E E M E N T

This Agreement, dated for convenience of reference as of the first day of March 1952, by and among

CITY OF PITTSBURGH

(hereinafter sometimes called the "City"), a municipal corporation of the Commonwealth of Pennsylvania located within the County of Allegheny.

ALLEGHENY COUNTY SANITARY
AUTHORITY

(hereinafter sometimes called the "Sanitary Authority"), a body corporate and politic of the Commonwealth of Pennsylvania duly created and existing under the provisions of the Muni-

city Authorities Act of 1945, as amended, and

COMMONWEALTH OF PENNSYLVANIA

(hereinafter sometimes called the "Commonwealth"), acting through the Department of Welfare,

W I T N E S S E T H :

Whereas, The Sanitary Water Board of the Commonwealth of Pennsylvania (hereinafter sometimes called the "State Board") has ordered the City and numerous adjacent municipalities to cease discharging untreated sewage into the streams of the Commonwealth and to provide suitable sewage treatment facilities; and

Whereas, In compliance with such order, the City entered into an agreement with the Sanitary Authority for the preparation by the Sanitary Authority of construction plans and specifications for a Sewage Disposal System to serve the City and numerous adjacent municipalities; and

Whereas, In compliance with similar orders some sixty municipalities adjacent to the City have entered into separate, substantially identical tri-party agreements with the City and the Sanitary Authority for obtaining sewage disposal service from the said Sewage Disposal System (of which agreements a typical sample, hereinafter called the "Municipal Agreement," has been furnished to the Commonwealth); and

Whereas, The Commonwealth, through its Department of Welfare, owns, maintains and operates in Scott Township, Allegheny County, a hospital known as the Woodville State Hospital (hereinafter sometimes referred to as "Woodville") which is located within the service area of the Sanitary Authority's projected Sewage Disposal System; and

Whereas, The Commonwealth desires to have the sewage of Woodville treated and disposed of in such manner as will satisfy the requirements of the State Board, and has decided that it would be more advantageous to receive sewage disposal service from the Sanitary Authority than to build and

operate a sewage treatment and disposal plant for Woodville.

Now, Therefore, It Is Agreed:

1. The Commonwealth hereby designates, engages and appoints the Sewage Agency, as hereinafter defined, to be the sole and exclusive agency, during the entire life of this Agreement, to provide sewage collection, treatment and disposal service (subject to the conditions hereinafter contained) to Woodville and to additions thereto and replacements thereof on the same site or on land adjacent thereto, all of which are hereinafter referred to as "the premises covered by this Agreement." The Commonwealth agrees that during such period it will not itself provide such treatment and disposal service, except for the pre-treatment of such wastes as shall require pre-treatment and except for the treatment and disposal of wastes and materials which must be excluded from the Sewage Disposal System.

As used in this Agreement the term "Sewage Agency" shall mean the agency designated by the City, under its agreement of August 1, 1949 with Sanitary Authority (of which agreement a copy has been furnished to the Commonwealth), to construct and operate the Sewage Disposal System. The Commonwealth understands and agrees that the agency so designated by the City—whether it be the City itself, the Sanitary Authority, an authority to be organized for such purpose by the City, or any other lawful agency—shall have the rights given to the Sewage Agency by this Agreement. The Agency so designated shall be subject to the obligations imposed by this Agreement upon the Sewage Agency. If the agency so designated is neither the City nor the Sanitary Authority it shall acquire the rights and become subject to the obligations of the Sewage Agency hereunder merely by formal acceptance of this Agreement, and the Commonwealth hereby consents to be bound thereby.

2. In preparing the detailed plans and specifications for the Sewage Disposal System the Sanitary Authority

will provide adequate capacity in the interceptor sewers and in the treatment and disposal plant to accommodate the present and foreseeable future quantities of sewage and acceptable wastes of Woodville, the anticipated capacity of which is 3,500 patients and 600 employees.

Subject to the provisions of Paragraph 4 of this Agreement the Sewage Agency will, upon completion of the Sewage Disposal System and during the remainder of the term of this Agreement, accept into its interceptor sewer all the sewage and acceptable wastes, present and future, of the premises covered by this Agreement, transport such sewage and wastes to its treatment plant, and provide such treatment and disposal thereof as may be required by law.

3. For the collection, treatment and disposal service provided by the Sewage Agency after the Sewage Disposal System has been completed and put in operation, the Commonwealth covenants to pay promptly to the Sewage Agency the Sewage Agency's established sewage service charges. Such charges shall be based upon the quantity of water, from whatever source, used in or on the premises covered by this Agreement (less quantity credits for water, separately metered, which does not enter a sewer connected with the Sewage Disposal System), in accordance with a uniform schedule of charges applicable throughout the service area of the Sewage Disposal System, and billed quarterly.

It shall be the obligation of the Commonwealth to install and maintain in good operating condition water meters or other water-measuring devices approved by the Sewage Agency, and the Commonwealth shall permit the Sewage Agency or its designee to read such meters or other measuring devices periodically. If for any reason the Sewage Agency shall not obtain such water quantity data for any billing period, it shall have the right to estimate the same and to use such estimated quantity in computing its charges, the quantity thus billed to be adjusted in the first period follow-

ing in which actual meter readings are available.

4. The Sewage Agency shall have the right to designate a list of unacceptable wastes (e.g., specified oils, acids, toxic wastes, etc.) which in its opinion may be harmful to its sewers, pumping stations or other structures or may interfere with the sewage treatment processes at its plant, and to change such list from time to time. The Commonwealth shall receive due notice of such unacceptable wastes, such notice to be given in writing to the Superintendent of Woodville and to the Commonwealth's Secretary of Welfare. The Commonwealth agrees to so operate its plants, buildings and premises, and to provide and properly operate such pre-treatment or other facilities to be specified and approved by the Sanitary Authority or by the Sewage Agency, subject to the approval of the State Board, as will assure the exclusion of all such unacceptable wastes from all sewers connected directly or indirectly with the Sewage Disposal System.

5. The Sewage Agency's interceptor sewers will be constructed approximately where shown on the map marked Exhibit "A" attached to this Agreement. In accordance with the policy set forth in Paragraph 7 of the Municipal Agreement, it shall be the obligation of the Commonwealth to bring the sewage and wastes of the premises covered by this Agreement to suitable points of connection with the Sewage Agency's interceptor sewer. Provision will be made, in the plans and specifications to be prepared by the Sanitary Authority, for only a single connection with the existing sewerage system of Woodville. As soon as such point of connection is determined, the Sanitary Authority will notify the Commonwealth, and it shall be the obligation of the Commonwealth to construct the necessary collecting sewers to bring all its sewage and wastes to such point, where connection with the Sewage Agency's interceptor sewer will be made without cost to the Commonwealth. All outfall sewers constructed after the completion of the Sewage Disposal System shall be brought by

the Commonwealth to points designated by the Sewage Agency, where connections will be made by the Sewage Agency at the expense of the Commonwealth.

6. This Agreement shall become effective immediately, and shall remain in full force and effect until the date of expiration, of forty (40) years from date of issue of the original revenue bonds of the Sewage Agency issued to construct the Sewage Disposal System.

In Witness Whereof, City of Pittsburgh has caused this Agreement to be executed by its Mayor and Director of the Department of Public Works and its official seal to be hereunto impressed, pursuant to Ordinance No. _____, duly enacted and approved on the _____ day of _____ 1952; Allegheny County Sanitary Authority has caused this Agreement to be executed by its Chairman and its official seal to be hereunto impressed and attested by its Secretary, pursuant to a resolution duly adopted by its Board on the _____ day of _____, 1952; and Commonwealth of Pennsylvania has caused this Agreement to be executed by its proper officers and its proper seal to be hereunto impressed.

AN ORDINANCE—Prohibiting discrimination in employment because of race, color, religion, ancestry, national origin or place of birth by employers, employment agencies, labor organizations and others; establishing a Fair Employment Practices Commission in the Division of Civic Unity; prescribing the duties and powers of the Commission; and providing penalties.

The Council of the City of Pittsburgh hereby enacts as follows:

Section 1. FINDINGS OF FACT:

(a) That discrimination in public and private employment because of race, color, religion, ancestry, national origin or place of birth is contrary to democratic principles and creates unrest and tensions between groups thus fomenting strife, disturbances and disorders which substantially and adversely affect the good order and general welfare of this City.

(b) Such job discrimination, with consequent arbitrary denial of job opportunities, unjustly condemns large groups of inhabitants of this City to depressed living conditions which breed crime and vice, juvenile delinquency and disease, thereby causing great injury to the public safety, public health and general welfare of this City, reducing its productive capacity and hampering its progress.

(c) The harmful effects produced by such job discrimination also tend to reduce the public revenues and to impose substantial financial burdens upon the public for the relief and amelioration of the conditions so created.

(d) Experience in other large cities has proved that legislation prohibiting such job discrimination removes some of the sources of strife, poverty, crime and disease and directly promotes public welfare and good government.

Section 2. DECLARATION OF POLICY:

All positions in the Office of Public Health Nursing from Chief to Public Health Nurse, Class I, inclusive, shall be considered grades of employment and shall be subject to an increment plan with minimum and maximum salaries. A vacancy occurring in any such position shall be filled at the minimum salary thereof and

annual increments shall be added thereto in equal amounts for five successive years until the maximum salary for the position is attained. Such increments shall be added to the salary on the anniversary date of employment with the City of Pittsburgh.

An employee moving upward in grade shall receive the minimum salary applying to the new position or retain the salary of the former position, whichever is greater. Thereafter increments shall be in regular amounts.

Each person employed prior to December 31, 1952 in a supervisory position in the Office of Public Health Nursing from Chief to Assistant Supervisor inclusive, shall, beginning January 1, 1953, be paid the salary applicable to that level in the increment plan which is in amount immediately below or equal to the salary such person would have received if \$200 were added to her 1952 salary, and such person shall not receive a further increment under the plan prior to January 1, 1954.

Each nurse employed prior to December 31, 1952 as a Public Health Nurse in Classes I, II and III, shall receive a salary increase beginning January 1, 1953 in the following amount:

Also, collaboration and mutual adjustment with the judgments, advice and suggestions, or other assistance made available by the City Departments of Public Works, Health, and Parks and Recreation, and the Pittsburgh Board of Public Education, the Pittsburgh Housing Authority, the Pittsburgh Parking Authority, and representatives of institutions of any type proposed to remain within the area or proposed to be newly located therein.

and local law to perform such services.
(c) None of the work or services covered by this Contract shall be sub-contracted without the prior written approval of the Local Public Agency.

(6) Time of Performance. (7) Compensation. The Contractor shall be paid as compensation the salary expenses incurred by it in connection with the performance of its duties under said Contract. The total amount of said salary expenses paid under the contract shall not exceed the sum of \$20,392.16. In addition to the salary expenses, the Contractor shall be reimbursed for all expenses incurred by it in connection with the performance of its duties under said Contract for the purchase of supplies, printing and similar expenses. The total amount of said expenses shall not exceed the sum of \$1,500. No monies shall be paid the Contractor for travel and subsistence expenses. In the event that the salaries paid and the permitted expenses incurred under this Contract should exceed the sum of \$20,392.16 and \$1,500 respectively, the excess thereof shall be borne entirely by the Contractor out of funds now available, or to be made available, to the Department of City Planning and/or the Department of Public Works of the City of Pittsburgh as the circumstances warrant, provided, however, in the event of expansion or increase or other change required by the Local Public Agency on its own initiative or by direction of the Housing and Home Finance Agency, all financial obligations thereby to be incurred shall be covered by an amendment of this Agreement prepared and executed in the same manner as this original agreement.

(8) Method of Payment. The salaries paid by the Contractor to the

classes of employees described in Exhibit "A" hereof, which shall constitute the entire compensation to be paid the Contractor under this Contract, shall be paid the Contractor in monthly installments one month after the commencement of the work upon receipt of a requisition for payment from the Contractor specifying the names of the persons employed by it in the positions described in Exhibit "A" hereof, the number of hours employed, the salaries paid said employees and certifying that it has performed the work in conformance with this Contract and that said work is commensurate with the monthly payment due it. (9) Termination of Contract for Cause. If, through any cause, the Contractor shall fail to fulfill in timely and proper manner his obligations under this Contract, or if the Contractor shall violate any of the covenants, agreements or stipulations of this Contract, the Local Public Agency shall thereupon have the right to terminate this Contract by giving written notice to the Contractor of such termination and specifying the effective date thereof, at least five days before the effective date of such termination. In such event, all finished or unfinished documents, data, studies, and reports prepared by the Contractor under this Contract shall, at the option of the Local Public Agency, become its property and the Contractor shall be entitled to receive payment of costs already incurred for any satisfactory work completed on such documents.

Notwithstanding the above, the Contractor shall not be relieved of liability to the Local Public Agency for damages sustained by the Local Public Agency by virtue of any breach of the Contract by the Contractor and the Local Public Agency may withhold any payments to the Contractor for the purpose of set-off until such time as

the exact amount of damages due the Local Public Agency from the Contractor is determined.

(10) Delays. Any delays that may occur due to causes beyond the control of the Contractor shall postpone the date for said definitive conclusion for a period equal to the aggregate time of such delays. Any such extensions of time shall be promptly recognized, in each instance, by exchange of memoranda by the parties to this Contract.

(11) Termination for Convenience of Local Public Agency. The Local Public Agency may terminate this Contract any time by a notice in writing from the Local Public Agency to the Contractor. If the Contract is terminated by the Local Public Agency as provided herein, the Contractor will be paid an amount which bears the same ratio to the total compensation as the services actually performed bear to the total services of the Contractor covered by this Contract, less payments of compensation previously made: Provided, however, that if less than sixty per cent of the services covered by this Contract have been performed upon the effective date of such termination, the Contractor shall be reimbursed (in addition to the above payment) for that portion of the actual out-of-pocket expenses (not otherwise reimbursed under this Contract) incurred by the Contractor during the Contract period which are directly attributable to the uncompleted portion of the services covered by this Contract. If this Contract is terminated due to the fault of the Contractor, Paragraph 9 hereof relative to termination shall apply.

(12) Changes. The Local Public Agency may, from time to time, request changes in the scope of the services of the Contractor to be performed hereunder. Such changes, including any increase or decrease in the amount of the Contractor's compensation, which are mutually agreed upon by and between the Local Public Agency and the Contractor, shall be incorporated in written amendments to this Contract.

(13) Prevailing Salaries and Hours of Work. Not less than the respective salaries prevailing in the locality as determined pursuant to the schedule attached hereto and made a part hereof entitled "Determinations of Prevailing Salaries for Architects, Technical Engineers, Draftsmen and Technicians under Section 109 of the Housing Act of 1949," and made in conformance with the Salary Ordinance of 1952 of the City of Pittsburgh, shall be paid to persons, in the event of their employment, in the respective occupations listed therein, employed in the performance of work under this Contract. Time-and-a-half shall be paid to all architects, technical engineers, draftsmen and technicians engaged in the work under this Contract, for hours worked in excess of eight hours in a day or forty hours in a week. In the event that the state or local laws should require overtime compensation in excess of the foregoing provisions for any or all of the classes of employees specified, whether on the basis of a shorter workday or week, higher premium pay or both, payment of such higher overtime compensation shall be made to such employees in accordance with such law in lieu of the time-and-a-half provision herein provided for. The Contractor shall furnish to the Local Public Agency with each statement submitted for services rendered, certification as to compliance with the provisions of this paragraph with respect to his employees and shall furnish similar certification of his subcontractors with respect to their employees engaged on the work under this Contract. The provisions respecting overtime compensation herein set forth shall not apply to executive, supervisory and administrative employees.

(14) Withholding of Salaries. If, in the performance of this Contract, there is any underpayment of salaries, the Local Public Agency shall withhold from the Contractor out of payments due to it an amount sufficient to pay to employees underpaid the difference between the salaries required to be paid under the Contract and the salaries actually paid such employees for the total number of hours worked.

The amounts withheld shall be disbursed by the Local Public Agency for and on account of the Contractor to the respective employees to whom they are due.

(15) Non-Discrimination. In the performance of this Contract there shall be no discrimination against any employee or applicant for employment for the work covered hereby because of race, creed, color or national origin.

(16) Interest of Members of Local Public Agency. No member of the Local Public Agency shall participate in any decision relating to this Contract which affects his personal interests or the interests of any corporation, partnership or association in which he is directly or indirectly interested; nor shall any member, officer, agent or employee of the Local Public Agency have any interest direct or indirect in this Contract or the proceeds thereof.

(17) Assignability. The Contractor shall not assign or transfer any interest in this Contract, whether by assignment or novation, without the prior written approval of the Local Public Agency thereto; provided, however, that claims for money due or to become due the Contractor from the Local Public Agency under this Contract may be assigned to a bank, trust company or other financial institution without such approval. Notice of such assignment shall be furnished promptly to the Local Public Agency.

(18) Interest of Contractor. The

Contractor covenants that it presently has no interest and shall not acquire any interest, direct or indirect, in the above described project area or areas or any parcels therein or any other interest which would conflict in any manner or degree with the performance of his services hereunder. The Contractor further covenants that in the performance of this Contract no person having any such interest shall be employed.

(19) Ownership of Reports. Copies of all reports, designs, drawings, and other technical data developed by the Contractor in relation to the project are to be given by the Contractor to the Local Public Agency and shall become its property, and the Local Public Agency shall have full right to use these instruments for any purpose whatsoever, without any claim on the part of the Contractor for additional compensation.

(20) Officials Not to Benefit. No Member of or Delegate to the Congress of the United States of America, and no Resident Commissioner shall be admitted to any share or part hereof or to any benefit to arise herefrom.

Whereas, The Department of Public Health of the City of Pittsburgh has initiated a program of placement for the training of nurses, sanitarians, medical social workers and health educators; and

Whereas, The gradual expansion of this placement program is contemplated with the continuing development of closer relationship with public and pri-

vate health and welfare agencies, and with schools of medicine, nursing, public health, social work and related professions; and

Whereas, It is customary in governmental health and welfare agencies engaged in training professional workers to reimburse such individuals for expenditures for bus and street car fare, telephone calls and incidental expenses related to carrying on their duties within the framework of the agency; and

Whereas, The continued and uninterrupted production of steel is a matter of survival of the nation during this period of rearmament of the forces of freedom in the world, and

Whereas, The stoppage of steel production would have been a notice to the world, both to our friends and allies, and to our enemies, that America was unable to meet its responsibilities because of domestic weakness and selfishness, and

Whereas, We in the Pittsburgh district have a special interest and a special duty in the maintenance of steel production, with its enormous impact upon the economic life of this district, affecting both business and labor, and

Whereas, Under such circumstances of public emergency, the City Council of Pittsburgh has the right and the obligation to express itself upon the question;

Now, therefore, be it

Resolved, That the City Council of Pittsburgh does hereby express its thankfulness that a shutdown of the steel industry has been to this date averted, because of the brave and determined action of the President of the United States, Harry S. Truman, who used the inherent powers of his office to protect the national safety and the general welfare; and that this Council does further urge that a prompt settlement of the dispute be made upon the basis of the report of the Wage Stabilization Board. It is essential that in time of crisis both management and labor agree to put the public interest first. The Wage Stabilization Board finding was an expression of public interest, through the duly constituted public representation. If its findings had been accepted by management and rejected by labor, there would have been tremendous pressure upon labor to recede from its position and continue work. We have a right to expect the same degree of regard for public interest from management as we would require from a labor organization.

The City Clerk is hereby instructed to send duly certified copies of this resolution to the President of the United States; to the presidents of the United States Steel Corporation, Jones and Laughlin Steel Corporation, Bethlehem Steel Company, Republic Steel Corporation, Youngstown Sheet & Tube Company and Inland Steel Company, and to the president of the United Steel Workers of America.

Whereas, The City of Pittsburgh graded, paved, curbed and sewered Seaton street, 19th Ward, under authority of Ordinance No. 326 of 1948 at a cost of \$104,719.59; and

Whereas, At No. 753 July Term, 1950, Viewers were appointed to assess the damages and expenses against properties abutting upon Seaton street; and

Whereas, In the report filed at No. 753 July Term, 1950, properties abutting on Seaton street were assessed in amounts varying from \$660.00 to \$2,070.00, with an average assessment of \$1,005.00; and

Whereas, There were fifty-eight appeals to the Court of Common Pleas from the said assessments which totaled \$58,248.00; and

Whereas, One of said appeals (1808 April Term, 1951) was tried in the Court of Common Pleas with a verdict reducing the benefit assessment from \$936.00 to \$835.00, or about 10% less than the amount allowed by the Board of Viewers; and

Whereas, The appellants, through their counsel, have offered to settle, discontinue and satisfy the said 58 appeals upon payment to the City of 90% of the face amount of the assessments, which sum amounts to \$52,423.20, with costs chargeable to the City, the costs amounting to \$246.50; and

Whereas, The settlement at 90% of the face amount of the benefit assessments is just and equitable and in the best interests of the City of Pittsburgh, since the jury's verdict in one case supports a reduction and the cost for real estate experts alone would amount to at least \$14,250.00 based upon one day's testimony in each case;

Now, Therefore, Be It

Resolved, That in the cases set forth in the list attached hereto in which

the City of Pittsburgh is the defendant, the City Solicitor be and is hereby authorized and directed to accept in full settlement of the assessments resulting from the grading, paving, curbing and sewerage of Seaton street, which amount to \$58,248.00, the sum of \$52,423.20, representing a computation based upon the amount allowed by a jury in one of the cases involved after an appeal from the Board of Viewers to the Court of Common Pleas, the City to satisfy the records in the cases appearing on the attached list and to pay the costs of \$246.50.

Whereas, It has pleased Almighty God in His infinite wisdom to remove from our midst our associate and good friend, Cornelius Decatur Scully.

Mr. Scully was born in Chartiers Township, now the 28th Ward of the City of Pittsburgh, in 1878. He attended the Windgap School, Pittsburgh Central High School, the University of Pennsylvania and the University of Pittsburgh. He was admitted to the Bar of the local and State courts in 1904, and engaged in active practice in this community for many years.

He was appointed City Solicitor of Pittsburgh in 1934. On December 26, 1935, he was elected to this Council to fill a vacancy caused by the resignation of John J. Kane upon his election as County Commissioner. On January 6, 1936, he was elected President of Council, and on October 19, 1936, was elevated to the position of Mayor of this City. He was subsequently re-elected by the people for two successive terms. His tenure of ten years and two months was longer than that of any previous Mayor of the City of Pittsburgh.

Throughout his life Dick Scully was guided by a deep love for this city and its citizens. He took a great pride in

its beauties; its spirit and its accomplishments; yet he did not blind himself to the faults of his native city. He saw her ugly slums, her blighted areas where neglected outmoded buildings were choking the life of the community and discouraging development. He saw the need for parks and playgrounds, for better housing, and the lack of cultural opportunities. Overall, he saw the blight of smoke. In the dark depression days of the early 1930's Mayor Scully refused to accept the gloomy view. While Mayor he pressed forward with plans for the alleviation of suffering; for the advancement of health and sanitation, for the development of adequate housing, and for the real awakening of the spiritual life of this city.

During his term as Mayor he was able to carry into effect many of his visions of civic improvement. It was during his term and in large measure due to his courageous support, that the City of Pittsburgh was able to initiate the anti-smoke program. Of the vast public improvements which are only now beginning to reach their culmination many had their birth in his love for this city and his dreams of beautification.

It is with deep sorrow that we mourn the loss of this great public servant.

Therefore, Be It

Resolved, That the Mayor and the members of Council of the City of Pittsburgh express our deep sense of loss upon the death of Cornelius Decatur Scully, and that we acknowledge our debt to him for his untiring efforts, keen judgment and hearty cooperation and the able discharge of all of the obligations which fell upon him, and that we give full recognition to the lasting contributions made by him to the enrichment of our civic life. It is further

Resolved, That these resolutions be spread in full upon the records of Council and that an engrossed copy thereof be transmitted to his family.

Almighty God has seen fit to remove from our midst Philip Murray, a champion of all the people of America and a great individual in whom was imbued the warm humanity that motivated his entire life.

Every moment of his life was devoted to promoting the welfare and the hopes of the working people of our Nation, many thousands of whom are part of this great industrial area of Pittsburgh.

The life he lived will long be remembered and the great humanitarian accomplishments he strove for will endear him in the hearts of millions upon millions of Americans. The memories he leaves behind will serve as an inspiration to people in all walks of life, and a yardstick for future generations as they move forward on the road to justice and equality.

In his life-long capacity as a leader of America's working people he was one of America's great citizens. As a resident of the City of Pittsburgh for a half century, our community, especially, will feel the deep loss.

The true measure of a great man lies in his humility, because he thus attests his dependence upon God. Philip Murray was a humble man and a great man.

Now, therefore, be it

Resolved, That the Council of the City of Pittsburgh expresses its deep sympathy to Mrs. Murray and her son, Joseph, because of their great personal loss; that the citizens of this City,

knowing and loving this fighter for justice, ask merciful judgment of a Divine Providence on his soul.
